Welcome to the Fall 2018 Training Course catalogue.

If you are reading this, you most likely already know that training provides preparedness and a working knowledge to almost any situation. Many great firefighters have received pointers throughout their career to better their craft and keep themselves, and others around them, safer. As firefighters run into buildings when everyone else is running out, we must be able to perform our job to the highest level, no matter what the time of day or how fatigued we are.

We must be masters of our craft, in order to safely and effectively save lives and property. No matter what the emergency is, we are expected to arrive on scene and mitigate the situation as quickly as possible. To do so, we must be “jacks of all trades.” On any given day, we are faced with responding to any number of incidents including the handling of hazardous materials, conducting rescue operations, engaging in structural firefighting, performing emergency medical operations and countless other situations. These tasks cannot be accomplished successfully unless we learn to the point where our job becomes second nature to us.

With so many responsibilities, how do you efficiently and effectively prepare to perform all these life-saving measures while also meeting the growing needs of the community?

The answer is simple...**Training**.

Training is a valuable and necessary component for successfully leading today's fire service. You must combine it with your experience and self-development to produce a well-rounded skill set. Gather your resources and establish your plan. Draw from the experience of officers and senior firefighters of your fire department. Coupling that, with these training opportunities provided by The Division of Fire Safety and our partners at Kean University, you will continue to build a leading role in the fire service. The future is in your hands.

Stay safe,

Rich Mikutsky
Director, N.J. Division of Fire Safety
State Fire Marshal

Web-based Course Registration Process

Registration into courses will be exclusively through the Web-based Course Registration Process. Phone registration is not accepted. To register for courses go to www.keanfiresafety.com and click on the Login Button.

If you have not already done so, you will need to register for an account on www.keanfiresafety.com. Account registration is available once per Division of Fire Safety Identification Number.

Read the instructions below before proceeding.

If you already have an Account click on Login. If you can't remember your password, please use the Lost Password link to reset your password.

Registration Period

The registration period begins on September 12, 2018 at 9 a.m. and continues through the semester. **Registration for each course closes 24 hours prior to the class start time.** You may register for a maximum of six (6) courses each semester. In special cases you may register for additional classes over the maximum limit, but only on a space available basis and approval by NJ Division of Fire Safety. Please call 609-777-3552 for approval. Credit will not be issued for repeat courses which have already been completed within your active certification cycle, with the exception of Code Update. The NJ Division of Fire Safety reserves the right to limit the number of enrollments per person.

Withdraw From A Course

If you are unable to attend a course, you must withdraw within 24 hours of that course. Failure to withdraw or receiving a No Show on your record could result in the DFS revoking registration privileges for future courses. Please be courteous to other fire service members who may want/need to attend the course, if you're not going to fill the seat. Please read the instructions below to withdraw from a course.

Course Confirmation Notice

You will receive a confirmation notice of enrollment via email from WordPress, subject line [Kean Fire Safety] to the email account you provide in the creation of your account. Please be sure to adjust your settings to allow email from keanfireregistration@kean.edu. We strongly suggest that you use an email account that is not provided by your internet server, i.e. @Comcast, @optimum, @Verizon so that you will be able to access your email even if you change internet service providers. We suggest a "permanent email" such as yahoo, Gmail, Hotmail, etc.

All communications regarding courses will be via email and you are responsible for checking for notices prior to attending any course. If you don't receive email in your inbox, please check your junk/spam box/folder and see if your confirmation was delivered there and then adjust your settings to allow delivery to your inbox.

Multiple Dwelling Inspector Information

UCC Fire Inspectors/Officials who also hold a Multiple Dwelling Inspector license may use any one of the following Code Enforcement courses per three-year license cycle for renewal of a multiple dwelling license. Further information may be obtained by calling 609-984-7834. The following course codes qualify for Multiple Dwelling Inspector credit: CE501, CE526, CE547, CE711, CE755, CE765, and C2T23.

Confirmation of Attendance

Students can receive same-day confirmation of attendance at a course. **If you are interested in receiving verification on the day you attend a course, you must print out and bring your emailed confirmation notice with you to class.** After the class has concluded, the facilitator will stamp this notice as proof that you attended the course. Although computer records are kept, we recommend you keep a record of all courses you attend and complete.

Unless otherwise noted in the course description, **all courses begin promptly at 8:30 a.m. and conclude at approximately at 3:30 p.m.** unless otherwise indicated. Please note, all instructors, have by contract agreed that they will provide the minimum number of contact hours that the NJ Division of Fire Safety requires in order to provide the credit amount indicated for each course. They are not allowed to adjust the course length without permission from NJ Division of Fire Safety or Kean University. Providing an early dismissal without permission could jeopardize the ability of the NJ Division of Fire Safety to grant any credit for your attendance in the course.

In order to receive course credit, you must check in with the course facilitator, be present prior to the start of class and in the classroom for the entire course. Credit may not be granted if you arrive late, return late from lunch and breaks, leave the location early or frequently leave the classroom while the course is in session.

Additionally, you may not receive credit if you are observed to be using the internet, reading a newspaper/magazine or engaging in behavior in such a manner that is not conducive to your participation in the class or causes a disruption/distraction to other students or the instructor. **If you are asked to discontinue such behavior and you do not immediately comply you may not receive credit.** The facilitator and instructor have the right to ask for your cooperation and they are not required to repeat that request. In other words, **by reading this notice and agreeing to these terms you acknowledge that you will not receive more than one request to cooperate and failure to immediately do so may result in no credit being given.**

Dress Code

The NJ Division of Fire Safety has instituted a dress code for attendance at courses. Appropriate dress includes long pants, shirts with sleeves, and shoes. Sleeveless shirts, shorts, and hats are not permitted at any DFS course, exam or conference. Facility representatives may enforce this dress code and those who do not comply may be dismissed from the course and /or lose credit.

Enrollment Instructions

Prior to beginning the enrollment process for any course, please read the course brochure for instructions and details such as if a parking permit is needed.

To begin the enrollment process for NJ Division of Fire Safety Courses, you must either create an account or if you already have an account that you created since September 12, 2018, you must login.

Please read the following very carefully, the registration process you're about to begin on www.keanfiresafety.com is **NOT** myNewJersey and **NO** information from your previous myNewJersey account has transferred to www.keanfiresafety.com.

Your previous myNewJersey credentials are **NOT** going to work in the Username and Password fields unless you specifically enter them as your **NEW** username and password in the **New Account** process. In other words, before you are able to register for any course on www.keanfiresafety.com, you must **FIRST** create a **NEW ACCOUNT**.

Once you have created an account on www.keanfiresafety.com you do not need to create another one and can proceed to login.

To create an account

- Click Login in the upper right part of the home screen of www.keanfiresafety.com.
- Click Register.
- Complete the following fields:
 - DFS Fire ID – CAUTION Be certain you enter the correct ID number or you may not get credit
 - First Name
 - Last Name
 - Username – CAUTION Username cannot be changed
 - Email Address – CAUTION Email address combined with Username cannot be changed or used more than once.
 - Phone number
 - Street Address
 - Zip Code
 - City
 - State
 - Password
 - Confirm Password
- Click the box to indicate you're not a robot. Follow instructions on the picture that pops up
- Click Register/Create an Account

After your account is created it will prompt you to login in using your Username and password. Complete the following required information on Profile page: First Name, Last Name and Email address. Click Update Profile at the bottom of the page. Please leave other fields blank or prefilled. You do not need to make any changes to your password. You will get a Profile Updated message.

Login on the Login page

- Click the Course Listings to begin the enrollment process.
- To Login
- Click the Login button in the upper right portion of the home screen
- Enter your Username
- Enter your Password
- If you can't remember your password, click the link Lost Password and enter your email address on the following page. A link to reset your password will be emailed to you.

To Enroll In A Course

- Login
- Your Profile page will open.
- Click Course Listings
- Click the arrow in the Select Category box
- Select the section you would like to browse and click Search. For example, PEOSH Fire Service Update, Administrative Courses, Technical Courses, Fire Service Certification, Continuing Education, Youth Firesetter Awareness Courses or Health and Fitness Courses. Or you can type in a specific course name and click search to go to that course.
- Browse to the course you would like to enroll in.
- Click on the Course Name listed with the location and date you would like to attend.
- Read the course description carefully, check that the location and date are what you intend to enroll in.
- After reading the course description and verifying the date and location, click the Enroll Now button.
- Click OK in the dialogue box if you are sure you want to enroll.
- If do not wish to proceed, click cancel in the dialogue box.
- Click the link for Back to Listings to begin the enrollment process again.

To Withdraw From A Course

- From either Your Profile or Course Listings click on Current Listings.
- Click on the arrow in the box beside Bulk Actions.
- Click on Delete/Withdraw.
- Click the box beside the course ID you would like to withdraw from.
- Click Apply.

16TH ANNUAL NEW JERSEY YOUTH FIRESETTER INTERVENTION CONFERENCE

For Fire Service, Mental Health, Law Enforcement, Social Services and Educational Professionals

NOVEMBER 29 & 30, 2018

Middlesex County Fire Academy – Sayreville, NJ

www.keanfiresafety.com

MISSION STATEMENT

Our Goal is to bring together State and County resources in the common goal of addressing the issue of youth fire setting throughout the state. We also aim to provide existing county youth fire prevention programs the support necessary to continue their vital mission and make every effort to aid in the development of programs in the counties where none exist.

OFFICE OF HOMELAND SECURITY AND PREPAREDNESS

Active Threat Integrated Response Course (PER-340)

WHEN

October 2 – 4, 2018
8:00 A.M. – 5:00 P.M.

WHERE

Morristown, Morris County, New Jersey
(Training location will come by email)

DESCRIPTION

The New Jersey Office of Homeland Security and Preparedness and the New Jersey Division of Fire Safety will sponsor a three-day training course titled, "Active Threat Integrated Response Course" (PER-340). The course will be instructed by the National Center for Biomedical Research and Training (NCBRT) at Louisiana State University (LSU), a member of the National Domestic Preparedness Consortium (NDPC).

There is no cost to attend this course.

This course is designed to improve integration between law enforcement, fire, and emergency medical services (EMS) in active shooter events. The course provides law enforcement officers with key medical skills based on tactical emergency casualty care (TECC) guidelines that can be used at the point of injury (POI) to increase survivability of victims. The course also provides a model framework for law enforcement, fire, and EMS to integrate responses during an active shooter event through the rescue task force concept using the Active Shooter Incident Management Checklist.

REGISTRATION

This course is for law enforcement, emergency medical services, fire service who have been identified by a first responder agency to serve in the capacity of a rescue taskforce model.. **Twenty-four** continuing elective units (CEUs) will be awarded to New Jersey Emergency Medical Technicians who complete the course.

Spaces are limited and preregistration is required. For your convenience, an online registration is available at <https://www.njhomelandsecurity.gov/calendar/2018per340mc>.

For further registration details, contact Michael Urbanski at MUrbanski@njohsp.gov or (609) 588-2128.

Saturday: Conference

Ladies program: Friday and Saturday

Sponsored by the New Jersey Fire Service

The NJ Division of Fire Safety strives to provide the NJ Fire Service and Code Enforcement officials with access to timely, informative and effective training and education. To stay current with changing demands and requirements placed on all first responders, the Division, in cooperation with Kean University, issues this Request for Course Proposals for upcoming semesters from qualified individuals interested in teaching and training the Fire Service community.

Specifically, the Division of Fire Safety requests proposals for continuing education courses related to training, education and communications issues relevant to fire service personnel throughout New Jersey. New proposals can cover a myriad of topics ranging from management and leadership skills to inspections and instructor specific courses. Current hot topics, including operations as well as fire service health and safety, also will be considered.

The Division encourages potential instructors to submit new ideas, teaching methods and programs as part of this call for proposals. Ultimately, these proposals will be judged on their timeliness, effectiveness, quality and relevance to the fire service. All proposals must include a detailed fee structure for development and execution.

This Request for Course Proposals is detailed and comprehensive. To be reviewed and/or considered for an upcoming teaching assignment, please submit all materials outlined in the Course Proposal checklist attached to this notice. Submissions that do not include all items referenced on the checklist will not be reviewed.

Please email completed materials to:

Mrs. Karen A. Haber

Program Director

kgrant@kean.edu

For more information, contact the Fire Safety Training Program at:

908-737-3060 or via email at firesafety@kean.edu.

COUNTY OF MORRIS, NJ PUBLIC SAFETY TRAINING ACADEMY

500 WEST HANOVER AVENUE, PARSIPPANY NJ 07954
PHONE 973-285-2979 FAX 973-285-2971
<https://academy.morriscountynj.gov/contact/>

The Morris County Public Safety Training Academy provides training to all emergency services in New Jersey. The Academy is a leader in training Fire, Police and Emergency Services. A staff of over 40 Fire, Police and Emergency Services instructors provides instruction to career and volunteers alike. Student and departmental training ranges from basic recruit classes to highly specialized training in all disciplines.

The Academy is located at the Morris County Law and Public Safety Complex along with the Morris County Sheriffs Crime Scene Unit, Sheriff's Emergency Response Team, County Fire Marshal, OEM, Regional Medical Examiner's office, and County Communications Center. The Academy has ten classrooms, a computer lab, auditorium, gymnasium, an indoor shooting range, a state-of-the-art shooting simulator, a computerized driving simulator and two cafeterias within the main building.

The fire grounds consist of numerous facilities. Our Life Safety Complex (LSC) is a 16,780 square foot KFT 'Class B' burn building which has six burn rooms along with an electrical hazards prop, bar cutting prop, sloped and flat roof cutting props, aerial training facility, mask confidence room, forcible entry door props, and numerous safety & survival and RIC training areas. Our five-story training tower facilitates rappelling and high-angle rescue training as well as hose advancement, standpipe operations, search & rescue and SCBA confidence training areas. A containerized 'Class A', the first of its kind, is a Drager Phase 5,

time temperature monitoring and the ability to train in vent-controlled firefighting techniques.

The Academy's live burn facilities also include a propane-fired KFT car fire prop, a KFT spill pad for flammable liquids training, and a KFT fire extinguisher training prop. On-site there is also a six bay fire station that houses two pumpers, a 100' rear-mount aerial, and the County/UASI Air Truck. The station also has a 20-seat classroom, a 5,500 PSI capable SCBA compressor and

six position fill station as well as the Instructors' locker room. The station provides a large interior area to train outside of the elements, including hose, search & rescue and ladder operations.

The grounds provide ample areas for vehicle extrication training, and have most recently hosted a number of classes in Drone use and training for emergency responders. The Academy's facilities have been designed to allow for the training of all disciplines; fire, tactical response teams, interdiction teams, protective details, emergency medical service responders, K-9, Civilian Emergency Response Teams, Youth Academies, and even local college Resident Assistant (RA) programs. In the last year over 14,000 persons trained here.

PEOSH Fire Service Update

Public Employees Occupational Safety and Health

Please join us for a PEOSH Fire Service Update. PEOSH representatives from the New Jersey Department of Labor and Workforce Development (Safety) and NJ Dept. of Health will be providing information on what PEOSH Enforcement is looking for when they inspect Fire Departments. PEOSH will also provide details on their cooperative services including Consultation and Training which can help you comply with their adopted rules. Some topics that will be discussed include:

- NJAC 12:100 SUBCHAPTER 10 STANDARDS FOR FIREFIGHTERS
- TRAINING REQUIREMENTS
- TURNOUT GEAR
- FIRE APPARATUS
- RESPIRATORY PROTECTION
- HAZARD COMMUNICATION
- CONTROL OF HAZARDOUS ENERGY
- BLOODBORNE PATHOGENS
- AND MANY MORE

There will be time for questions and answers following each training session.

PROGRAM PRESENTED BY THE NEW JERSEY DIVISION OF FIRE SAFETY

www.keanfiresafety.com

COMMUNICATING FOR RESULTS

CE092

Instructor: Claudia A. Monte, CAM Consulting Group LLC

We communicate all the time, but are we achieving the results we want? There are many communication mediums available today – in person, written (correspondence and email), telephone, video and teleconferences, etc. The challenges are several: choosing the appropriate way to share a message; showing sensitivity to others; creating understanding across generations; and focusing on results. The rewards are many when interpersonal dynamics are managed properly and respectfully. Participants will leave feeling more confident in their ability to interact professionally with others.

SATURDAY, OCTOBER 27

OCEAN COUNTY FIRE ACADEMY

COMMUNITY RISK REDUCTION: INTEGRATING OUR EFFORTS

N2N77

Instructor: Lt. Michael O. McLeieer, City of Olivet (MI) Fire Department

This course is intended to familiarize fire operations personnel with the concepts of community risk reduction, stressing their importance in today's tough economic times. It is more important than ever for the fire service to seek innovative mitigation strategies to manage call volume and improve firefighter and public safety. This course was created by Vision 20/20, a project of the Institution of Fire Engineers, USA in cooperation with the National Fallen Firefighters Foundation and the National Fire Academy. The goal of this course is to provide national strategies to be utilized at the local level for fire loss prevention.

TUESDAY, DECEMBER 4

FRIDAY, DECEMBER 7

CAMDEN COUNTY FIRE ACADEMY

EMOTIONAL INTELLIGENCE - OUR OTHER INTELLIGENCE

CE171

Instructor: Claudia A. Monte, CAM Consulting Group LLC

Why, despite equal intellectual capacity, training, or experience, do some people excel while others with the same abilities don't achieve the same level of success? Emotional Intelligence (EI/EQ) is the critical factor that helps us harness the power of our emotions to achieve personal and professional success. You are not only known by the results you accomplish, but are most remembered by how you did it. Learn how Emotional Intelligence can positively impact your life, your performance, and your relationships.

MONDAY, OCTOBER 29

GLOUCESTER COUNTY FIRE ACADEMY

ETHICS, VALUES, AND CONFLICT OF INTEREST FOR FIRE SERVICE PERSONNEL

New

CE031

Instructor: Philip J. Sabatelli, Ph.D.

By way of guided discussions and experiential learning exercises, participants will examine and challenge their personal and professional assumptions about ethical choices, dilemmas, and conflicts faced by Fire Service personnel. They will create guidelines for those who may need ethics/values clarification in the discharge of their professional duties. The seminar is suitable for any member of the Fire Service regardless of rank or position.

TUESDAY, OCTOBER 9

ATLANTIC COUNTY FIRE ACADEMY

FIRE AND LIFE SAFETY EDUCATION THAT YOUR COMMUNITY CAN LIVE WITH

CE167

Instructors: Helge Nordtveit, Fire Captain (Ret.), Retired Youth Fire Setter Intervention Program Manager. Current Fire Official, Fire Instructor and Fire Service Trainer
Joseph Ehrhardt, Retired Juvenile Justice Administrator, Retired Youth Fire Setter Intervention Program Manager. Current Fire and Life Safety Educator and Fire Service Trainer

The focus of this course begins with an exploration to “determine what” to identify the fire and life safety education needs of the student’s community. Through careful examination and group exercises, the student will be presented with the dynamics and examples of successful community risk reduction programs. Strategies to overcome organizational and community resistance shall be presented as well as the development of necessary resources, partnerships and materials.

FRIDAY, OCTOBER 5

PASSAIC COUNTY FIRE ACADEMY

SATURDAY, OCTOBER 20

ATLANTIC COUNTY FIRE ACADEMY

"FIRE IS"

CE159

Instructors: Andrew Stratton, Captain, Cranford Fire Department
Helge Nordtveit, Captain (ret.), Cranford Fire Department

This course will provide fire service personnel with a comprehensive overview of the "Fire Is" fire safety and survival education program. The goal of this program is not only reaching middle school-aged children as they begin to understand fire, but their parents/guardians and caregivers as well. The curriculum is centered on an internet-based learning system where children are assigned by their schools to view educational modules at home with their parents throughout the school year. This free program is designed to be done outside of the busy classroom thus not adding any course load pressure to the middle school teachers. This program covers aspects of the reality of what is experienced in a real structure fire, and how to survive. Upon completion of the program, the student takes an online test and is issued a certificate of Completion where a school test grade is then recorded. Session attendees will receive copies of the program, letters of endorsement from numerous schools in NJ who have heralded its success; a course curriculum guide; and simplified instruction on how to implement the program without taxing the schools' current curriculum or teacher workload. The instructor will present the media and public views on how fire safety and the fire service are portrayed in the media to children and their families currently thus showing the absolute need for a change in the fire service to reality based instruction as found in this program.

TUESDAY, OCTOBER 2

MIDDLESEX COUNTY FIRE ACADEMY

TUESDAY, OCTOBER 30

OCEAN COUNTY FIRE ACADEMY

HARASSMENT, DISCRIMINATION, AND SOCIAL MEDIA: ISSUES FOR THE EMERGENCY SERVICES. (FORMERLY RECOGNIZING AND PREVENTING WORKPLACE HARASSMENT.)

Updated

CE146

Instructor: Robert V. Hill, Sr., Director, Gloucester County College/Fire Academy

Recent court decisions require employers to have a workplace harassment policy and train supervisors and managers on how to respond to complaints, as well as offering this training to all employees. This recently updated course offers common sense approaches to recognizing and responding to complaints of harassing or discriminating behavior. In addition to workplace issues, the emerging problem of social media posts versus First Amendment Rights is also discussed with proactive recommendations offered.

MONDAY, SEPTEMBER 24

MERCER COUNTY FIRE ACADEMY

FRIDAY, OCTOBER 19

MORRIS COUNTY FIRE ACADEMY

LEADERSHIP: A SELF ANALYSIS

CE061

Instructor: Michael J. Corbo, Deputy Chief (ret.), Pleasantville Fire Department Director, Atlantic County Fire Training Center

This course will provide students with the opportunity to look at the leadership qualities they already possess and the qualities they need to develop to become better leaders. We will examine the 11 characteristics that effective leaders possess and the traits that make up each characteristic. Each attendee will work through exercises to determine if they already exhibit any of the 11 characteristics and which traits they need to develop in order to become a more effective leader.

WEDNESDAY, NOVEMBER 7

PASSAIC COUNTY FIRE ACADEMY

WEDNESDAY, DECEMBER 12

BURLINGTON COUNTY ESTC

LEADERSHIP EXCELLENCE

Updated

CE119

Instructor: Ron Kanterman, Fire Chief, Town of Wilton (CT)

This program takes the students through different phases to getting to excellence in leadership. Covered are; developing yourself, developing your people, developing your organization and those crucial firehouse communications. Lecture, role playing and group hands on workshops make up this class. Also discussed are having a "vision" and "mission statement" and coming away with a plan for personal and departmental improvement, to take back to the firehouse. Learned techniques can be used at home, on the job and while navigating the "shark tank" of Town Hall.

MONDAY, OCTOBER 15

CAPE MAY COUNTY FIRE ACADEMY

FRIDAY, NOVEMBER 9

MONMOUTH COUNTY FIRE ACADEMY

LEADERSHIP IN THE REAL WORLD

CE168

Instructor: Robert T. Burns, Battalion Chief (ret.) FDNY

This class will involve a candid discussion of proven leadership principles and demonstrate how they can be applied in today's emergency service work environment. Unlike many leadership programs which only describe the characteristics and traits that leaders should possess, "Leadership in the Real World" combines cutting edge theories with skills and behaviors that students will be able to use "on the job", in their departments, every day. The curriculum will cover the four core concepts required for effective leadership: promote yourself, find your voice, know the tools of the leadership trade, and communicate effectively. The technical knowledge and no-nonsense skills presented in this class will serve as a foundation for effective leadership development.

FRIDAY, OCTOBER 12

BERGEN COUNTY FIRE ACADEMY

TUESDAY, OCTOBER 23

CUMBERLAND COUNTY FIRE ACADEMY

PRESENTATION SKILLS FOR THE FIRE SERVICE: HOW TO PROVIDE AN EFFECTIVE PRESENTATION

C1C11

Instructor: Adrian J. Cales, Asset Protection Manager, Public Service Enterprise Group,
Detective Sergeant (ret.), Arson Investigations Unit, Bergen County Prosecutor's Office

Want that new \$900,000 Tower Ladder? Thinking of asking for additional manpower? How best to save those firefighter jobs that the administration always wants to cut? As a fire service leader, it is inevitable that you will be called upon to make a departmental presentation, provide instruction to other fire fighters, or perhaps, you may have to speak in front of a civic group or a group of non-fire service people on a fire service topic. Feel comfortable with that idea? It's all about presentation skills. Knowing what to say is probably not the issue at hand, it's knowing how to say it, and how to present the topic and the material that often is the problem for the speaker. This course will focus on developing those skills.

WEDNESDAY, OCTOBER 31

MORRIS COUNTY FIRE ACADEMY

PUBLIC EDUCATION FIRE SAFETY AND PREVENTION PROGRAMS FOR FAMILIES AND SENIORS

CE151

Instructor: Joseph Vallo, Jersey City Fire Department

Developing a fire safety and prevention program for families and seniors requires the careful consideration of many factors. Seniors-individuals over 65 years of age make up the fastest growing segment of the population and they have a variety of special needs. The traditional family unit is also changing to a growing diversity and may include multiple generations and even multiple families in one building. Attendees will learn to develop and implement a program focused on the varying needs of these groups. This course will emphasize preparedness, communication and consistency in educating families and the senior community. Information will be given on how to utilize volunteer and professional organizations as well as draw upon internal personnel, equipment and other resources. Attendees will also be provided with tips and drills to use in the field.

MONDAY, OCTOBER 22

SUSSEX COUNTY FIRE ACADEMY

MONDAY, OCTOBER 29

CAPE MAY COUNTY FIRE ACADEMY

THE ART OF NEGOTIATING

CE170

Instructor: Claudia A. Monte, CAM Consulting Group LLC

Negotiation is a part of life. Sometimes it is done formally, but most times it is done informally on the job, at home, or in social situations. Communication, respect, preparation, and focus are the heart and soul of the negotiation process. Successful negotiations allow two parties to resolve their differences and leave feeling like they both won. By effectively managing interpersonal dynamics, a situation can change from one of confrontation to one of cooperation. Participants will leave knowing how to manage differences and achieve success.

WEDNESDAY, OCTOBER 24

SOMERSET COUNTY ESTA

THURSDAY, OCTOBER 25

MERCER COUNTY FIRE ACADEMY

THE DYNAMICS OF CHANGE

CE162

Instructor: Claudia A. Monte, CAM Consulting Group LLC

Change is not always easy, yet it has become a way of life for those living in today's professional environments. Managed properly, it becomes an opportunity for people to contribute, learn, and grow from the experience. In this interactive course, participants will learn how to confidently meet the challenges of change and help direct others through the process.

FRIDAY, OCTOBER 26

MONMOUTH COUNTY FIRE ACADEMY

TUESDAY, OCTOBER 30

BURLINGTON COUNTY ESTC

YOUTH FIRESETTER AWARENESS

CE705

Instructors: Helge Nordtveit, Fire Captain (Retired), Retired Youth Fire Setter Intervention Program Manager. Current Fire Official, Fire Instructor and Fire Service Trainer
Joseph Ehrhardt, Retired Youth Fire Setter Intervention Program Manager.
Current Fire and Life Safety Educator and Fire Service Trainer

Does your community have an issue with children using fire in unsupervised or dangerous ways? If you said "Yes", are you comfortable with your community's response? If you said "No", how educated are you on the issue and are you comfortable with a reliance on the status quo? If you said "I don't know", there are several steps that you can take immediately to learn about and respond to this often hidden, misunderstood, and potentially deadly and destructive issue.

Youth fire setting is a greatly under-reported occurrence on a broad spectrum that reaches from childhood curiosity to pathological compulsion. One factor that greatly contributes to the unsupervised and dangerous use of fire by children is the absence of fire safety awareness and practice in the home. This is an important social issue which involves family dynamics, peer relations, community awareness and a carefully structured, coordinated response.

The goal of this class is to describe what a public safety official needs to do to effectively address the issue of children using fire in unsupervised or dangerous ways.

ACTIVE AND PASSIVE FIRE PROTECTION IN THE BUILT ENVIRONMENT

Updated

CE711

Instructor: Ron Kanterman, Fire Chief-Town of Wilton (CT)

Discussed in this course are the design, installation, maintenance, code requirements and application of: sprinklers, standpipes, CO2, halon, dry chemical, wet chemical, clean agents, fire alarms, smoke control, and foam systems. Learn not only how these systems work and how they should be maintained, but also how to use them to your advantage during a building emergency. A large amount of photos compliment this class to aid in explaining the inner workings of said systems.

CODE UPDATE

Updated

CE501

Instructor: Patrick W Bigoss – Lumberton Twp. Fire Official (RET); Camden County College, Faculty Coordinator (RET)

This course is required for working Fire Officials and Fire Inspectors as part of the three- year renewal cycle. This seminar will provide an in depth overview of significant changes to the New Jersey Uniform Fire Code Chapter 5:70-1, 2 and 4 proposed in 2017 and adopted in 2018. It will also provide an overview of the IFC 2015 NJ Edition which took effect on July 1, 2018. The overview will highlight changes from the IFC 2006 NJ Edition. Also covered will be new rule adoptions not contained in the IFC 2006 Edition.

EVERYDAY FIRE INVESTIGATIONS - TIPS & TECHNIQUES FOR MUNICIPAL OFFICIALS

CE789

Instructor: David T. Phelan, Principal Investigator, Special Call LLC

Are you or your agency's time, cost, and manpower limited in performing a fire investigation? What does NFPA 921 and NFPA 1033 mean to municipal investigations? The majority of your investigations are not criminal acts and leave you with limited resources to meet the statutory obligation of conducting a fire investigation. Make the most of your resources and efficiently handle your everyday fires from small appliances, motor vehicles, and up. This program will help you streamline the process and avoid the pitfalls of the changing civil litigation and subrogation claim landscape which often accompany 'accidental' fires. Case studies and classroom exercises based on real events will be used to demonstrate various interview and documentation tips which you can apply at your next fire. In addition to receiving DFS continuing education credit, a brief end of class test is provided for attendees who must demonstrate testable continuing education for a fire investigator certification.

FIGHT THE FIRE, NOT THE BUILDING

New

C1D76

Instructor: Ron Kanterman, Fire Chief-Town of Wilton (CT)

Work smarter not harder. Commercial buildings present many challenges during a fire fight but knowing what they have to offer will make your job easier and safer. This class reviews and discusses the built-in active and passive fire protection systems that make up the building's fire and life safety system and gives the participants an understanding of the basic workings of said systems. Upon completion, participants will be able to return to their departments and look at commercial buildings and other target hazards in their first due response district and make changes in strategy and tactics and on pre-fire plans. *Firefighter safety is emphasized throughout the workshop.*

FIRE INVESTIGATION: CONSIDERING THE ROLE OF NATURAL GAS AND/OR ELECTRICITY

CE760

Instructor: Adrian J. Cales, Asset Protection Manager, Public Service Enterprise Group, Detective Sergeant (ret.), Arson Investigations Unit, Bergen County Prosecutor's Office

This program is designed to provide you with a thorough, comprehensive and complete understanding of the properties of both natural gas and electricity, and the steps necessary for the examination of a fire scene where there is the potential that natural gas or electricity were involved in either the origin or the cause of the fire. The emphasis of the program will be on how any and all components associated with either natural gas or electricity services must be subject to a detailed examination at every scene to either eliminate them, or attribute them, as to having any role or involvement in the origin or the cause of the fire, and what steps are necessary for this process to be completed.

FIREGROUND OPERATIONS AT BUILDINGS OF ORDINARY & HEAVY TIMBER CONSTRUCTION: OLD SCHOOL HAZARDS FOR TODAY'S BUILDINGS AND RISKS

Updated **C2D05**

Instructor: Chief Christopher J. Naum, SFPE, Chief of Training, Command Institute, Consultant, NIOSH Firefighter Fatality Investigation Program

This program goes beyond the cursory discussions of “main street” unreinforced masonry (URM) and reinforced masonry (RM) construction and occupancies but expands and explores the complexities of this heritage and legacy construction system and their renovations, adaptive reuse, make-overs and fireground operations. An overview of construction systems, materials and methods, inherent building characteristics, predictability of building performance, operational considerations, strategies and tactics with a focus on operational excellence and firefighter safety. Key Building Anatomy features, design and current architectural and design systems will be explored on this often-neglected building system along with Collapse zone identification and management with integrated case studies.

PHYSIOLOGICAL AND MENTAL STRESSORS OF FIGHTING FIRES

C2T39

Instructor: Anthony Correia, Fire Chief/Director, Retired

The physiological and mental stressors of fighting fires is of significant concern to all involved. Exposure to fire and its byproducts is even more hazardous than ever before. Understanding the effects of being exposed to fire, smoke and carcinogens will help those involved to be better prepared to reduce these hazards. This program details these stressors as well as the relationship of cardiovascular disease, dehydration, cancer and chemical exposure from smoke and firefighting activities. This course discusses why being fit for duty, providing on scene and after incident rehabilitation services are important to help reduce the impact of these diseases when fighting fires. It will also cover the work of the NJ Healthy Firefighter coalition and provide an overview of the NJ Rehab guideline and how to utilize it for optimum rehab services.

PRINCIPLES OF MODERN BUILDING CONSTRUCTION

Updated

CE547

Instructor: Michael Scardino, Chief of Department (Retired), Winslow Township Fire Department

Principles of Modern Building Construction is designed to raise the awareness of Fire Service personnel of the dangers inherent in the construction methods and materials prevalent today, and compare them with the construction methods of old. A brief review of construction types and methods is used as a platform to introduce new lightweight materials and methodology. Factors such as high-heat release fuel loading, energy efficiency, thermos pane windows, tighter building envelopes, and the impacts these have on the time temperature curve will be introduced. This course encourages students to document new construction using digital photography. This will afford the firefighter advance knowledge of vulnerabilities and exposures, and will hopefully facilitate better tactical decision making and outcome prediction.

RAISE YOUR RIGHT HAND AND REPEAT AFTER ME

C2T21

Instructor: Kathleen Kirvan, Esquire, Lieutenant, Mount Laurel Fire Department

This course will provide each attendee with insight into what to expect if he or she is ever called to testify as a witness or is personally sued because of his or her affiliation with the emergency services community. The course will take attendees through the pre-trial and trial process, what a party to lawsuit can expect and the rigors of testifying at trial. Students will also be provided with insight into the legal process of a court case by defining the similarities and differences between criminal and civil trials, and emphasizing the elements of trial testimony of both lay and expert witnesses. This course is for all members of the emergency services community, with a special emphasis on fire officials, fire inspectors, training officers and superior officers.

TIPS AND TOOLS FOR EFFECTIVE INSPECTIONS

Updated

CE774

Instructor: Patrick W Bigoss - Lumberton Twp. Fire Official (RET); Camden County College, Faculty Coordinator (RET)

This program is intended to expand knowledge for newly appointed or recently re-appointed inspectors. It will also serve as a refresher for inspectors who perform a very limited number of inspections per year. Topics covered include duties and responsibility, interagency cooperation, inspection preplanning, performing the inspection, documenting the inspection and completing the inspection process. The program will also include a review of legal requirements, dos and don'ts and the consequences and remedies for inspectors who deviate from the stated requirements. There will be examples of violations and the proper reference under the IFC 2015. Seasoned inspectors taking the program for CEU requirements may find the program to be a re-statement of what they already know.

WATER-BASED FIRE PROTECTION SYSTEMS, PART 1

Updated

CE791

Instructor: Paul T. Dansbach, Fire Marshal, Borough of Rutherford

This class was previously presented as Water-Based Fire Protection System, NFPA 25-14. The class has been expanded and separated into two separate parts to meet the expanded requirements of NFPA 25-14 and to address both technical and administrative requirements of the NJ UFC. Part 1 of this class will focus on the technical requirements of Chapter 9 of the NJ IFC, how to properly cite the requirements of NFPA 25-14 and other referenced NFPA standards. Administrative requirements including the requirements for imminent hazards and abatement periods as they apply to water based fire protection systems will be presented. The requirements of Chapters 3 and 15 of NFPA 25-14 will be reviewed as well as information for determining when and how fire watches may be conducted and how to deal with system impairments. Information relating to how to determine Commodity Classifications from NFPA 13 will also be presented. Participants may take part 1 and/or part 2 and in any order and are not required to complete both parts for CEU credit.

Fire Instructor Certification Program

The Fire Service Instructor Safety courses are components of the New Jersey State Fire Service Instructor Credentialing Program and is accredited by Pro Board and IFSAC. Information regarding the requirements for certification for Instructor Level 1, Instructor Level 2, and Special Instructor Certificate for Drill Ground Instructor can be obtained from the New Jersey Division of Fire Safety, Office of Training and Certification at 609-777-3552. Contact your local fire academy to determine additional course offerings. Completion of the Drill Ground Instructor program is a pre-requisite for admittance into the Fire Service Instructor Level 1 Written Examination. It is strongly suggested that individuals first complete the Fire Service Instructor Level 1 course prior to taking the written examination. Turnout gear is not required for the Drill Ground Instructor program or the written examinations. The courses needed for Fire Service Instructor Certification are being offered to those interested in certification as a Fire Service Instructor Level 1 or Level 2. An individual must successfully complete a program of instruction sanctioned by the Division of Fire Safety that meets the requirements of NFPA 1041, Standard for Fire Service Instructor Professional Qualifications, 2012 edition, utilizing the International Fire Service Training Association (IFSTA) publication titled "Fire and Emergency Services Instructor, 8th Edition." This publication is used for both the Level 1 and Level 2 instructional programs. The State written examination will be administered at the end of each sanctioned training program.

DRILL GROUND INSTRUCTOR

DGI01

Instructor: Michael J. Corbo, Director, Atlantic County Fire Training Center

This one-day course is required for anyone wishing to obtain or renew a Drill Ground Instructor Certification issued by the Division of Fire Safety. The intent of this course is to ensure that instructors understand the safety issues and adopted NFPA 1403 Standards inherent in SCBA/Smokehouse and Live Burn firefighting training. The students will be provided with a basic understanding of identifying and correcting unsafe situations as they occur, and will review various safety concerns regarding drill ground instructional activities and student performance criteria. Turnout gear is not required for this course.

Fire Instructor 1 and 2 Certification Programs

Fire instructor certification programs have been adopted which meet the requirements of NFPA 1041, Standard for Fire Service Instructor Professional Qualifications, 2012 edition, utilizing the International Fire Service Training Association (IFSTA) publication titled "Fire and Emergency Services Instructor, 8th edition". Both the Fire Service Instructor Level 1 and 2 programs are contained in this one publication. Students will be required to purchase the referenced textbook prior to attending the programs. Should a student take the programs after obtaining certification they will receive 4.0 CEU's Technical credit toward renewal of their fire instructor certification. The New Jersey Fire Instructor 1 and 2 programs are accredited by Pro Board and IFSAC. The student must meet all fire instructor credentialing requirements to be certified by the Division of Fire Safety.

FIRE INSTRUCTOR 1

T1001

Instructor: John J. Lewis, Lieutenant (ret.), Passaic Fire Department

This program is approved by the Division of Fire Safety to satisfy the instruction criteria for certification as Fire Instructor Level 1. The 40-hour program utilizes the IFSTA textbook referenced above, and is designed to present the student with basic skills to assemble course materials, use instructional aids and evaluation tools, review and adapt lesson plans, present a lesson from a prepared lesson plan, and review the administrative record keeping functions of the instructor. Successful completion of the program grants the student eligibility to take the State Fire Instructor Level 1 written examination. Please contact your county fire academy for additional deliveries of this certification course.

INSTRUCTOR LEVEL 1 CERTIFICATION EXAMINATION

T1W01

SATURDAY, OCTOBER 6	9 A.M. TO 12 P.M.	BURLINGTON COUNTY ESTC
THURSDAY, NOVEMBER 8	7 P.M. TO 10 P.M.	MORRIS COUNTY FIRE ACADEMY
SATURDAY, DECEMBER 8	9 A.M. TO 12 P.M.	MIDDLESEX COUNTY FIRE ACADEMY

The 100 - question exam evaluates concepts of instruction from IFSTA, 8th Edition Fire & Emergency Services Instructor Textbook. The minimum passing score for Instructor Level 1 Certification Examination is 70% correct.

INSTRUCTOR LEVEL 2 CERTIFICATION EXAMINATION

T2W01

SATURDAY, OCTOBER 6	9 A.M. TO 12 P.M.	BURLINGTON COUNTY ESTC
THURSDAY, NOVEMBER 8	7 P.M. TO 10 P.M.	MORRIS COUNTY FIRE ACADEMY
SATURDAY, DECEMBER 8	9 A.M. TO 12 P.M.	MIDDLESEX COUNTY FIRE ACADEMY

The 100-question exam evaluates more advanced concepts of instruction from IFSTA, 8th Edition Fire & Emergency Services Instructor Textbook. The minimum passing score for Instructor Level 2 Certification Examination is 70% correct.

FIRE INSPECTOR WRITTEN EXAMINATION

FIW01

The New Jersey Division of Fire Safety announces that a NJ Fire Inspector Written Examination will be presented regionally. Below are listed the exam dates, locations and start times. The written exam has been created to meet the examination requirements contained in the NJ Uniform Fire Code for individuals to obtain a NJ Fire Inspector certification issued by the Division of Fire Safety. This exam will be an 'open book' exam and will permit an individual to bring the referenced Fire Inspector course textbooks/codebooks into the exam room to be referenced throughout the exam. IFSTA Fire Inspection and Code Enforcement - Seventh Edition, NJ Uniform Fire Code, IFC 2006 NJ Edition, IBC 2006 NJ Edition – Chapter 9, 10 and Index or entire book and a solar or battery operated calculator. The exam will present 75 questions. To pass this exam an individual must obtain a minimum passing score of 70% correct. The exam will be 3 hours in length. The examination will not be administered orally to any individual.

SATURDAY, OCTOBER 6	9 A.M. TO 12 P.M.	BURLINGTON COUNTY ESTC
THURSDAY, NOVEMBER 8	7 P.M. TO 10 P.M.	MORRIS COUNTY FIRE ACADEMY
SATURDAY, DECEMBER 8	9 A.M. TO 12 P.M.	MIDDLESEX COUNTY FIRE ACADEMY

NOTICE

PHOTO IDENTIFICATION AND DFS I.D. NUMBER IS REQUIRED TO TAKE ALL EXAMINATIONS. STUDENTS WILL NOT BE ADMITTED WITHOUT PHOTO IDENTIFICATION. FAXES WILL NOT BE ACCEPTED. NO ELECTRONIC DEVICES, CELL PHONES, OR MOBILE DEVICES WILL BE ALLOWED IN EXAMINATION ROOMS UNLESS NOTED IN COURSE DETAILS ABOVE. ONLY ONE EXAM WILL BE ADMINISTERED PER DAY.

The NJ Division of Fire Safety requires completion of training programs within a certification cycle to renew a fire instructor certification. Part of the recertification program requires completion of Continuing Education Units (CEUs) courses. The Continuing Education courses are one method to meet the requirements.

A FIRE OFFICER'S GUIDE FOR TODAY'S BUILDINGS ON FIRE

New

C2D12

Instructor: Chief Christopher J. Naum, SFPE, Chief of Training, Command Institute, Consultant, NIOSH Firefighter Fatality Investigation Program

Today's fireground, buildings and occupancies present increasing challenges that have redefined strategic and tactical fireground operations and impact these operations on a wide variety of levels that often include adverse compartment fire conditions, structural compromise, collapse and predictable building performance. Presenting insights on building construction for today's fire service, the primary objective of this program is to increase awareness and understandings and promote new skill sets in the fundamentals of building construction, architecture, engineering and design that directly impact firefighting and command operations at structure fires. A discussion of emerging trends in Building Construction Systems, Occupancy Risks, Collapse & Compromise Characteristics, Methods & Materials, Design, fire protection and Fire Dynamics related to building anatomy will be presented. New for 2018 are insights on new Mass Timber and Cross Laminate Timber (CLT) construction and podium and doughnut construction designs.

APPARATUS DRIVING PHASE 1: ESSENTIALS FOR THE PROFESSIONAL DRIVER AND EMERGENCY SERVICE'S ORGANIZATION

C2T34

Instructor: Robert V. Hill, Sr., Director, Gloucester County College/Fire Academy

Apparatus driving is an essential skill that must be mastered through training and education to ensure the safety of responders and the general public. Additionally, member organizations benefit from the training and education by reducing liability exposure and improving service life of their equipment. Upon completion of this classroom program, participants will have a full understanding of the many facets of what is required of both the professional apparatus driver and the member's organization. Information provided is drawn from codes, regulations, NFPA standards, established driver safety programs and personal commercial driving experience of the author from more than twenty years as a successful commercial motor vehicle driver and commercial motor vehicle driving instructor.

BOMB THREAT AWARENESS AND RESPONSE

Updated

C1D91**Instructor:** Jim Varick, Detective, NJSP Bomb Unit

This course will provide an awareness level training to the student on the topic of homemade explosives and explosive devices and response to incidents involving explosives and explosions. The primary focus of this course will be to allow the student to gain sufficient knowledge so that he/she is able to safely respond to and manage an incident involving explosives and explosions and then cooperate with the Bomb Squads specifically tasked to mitigate or investigate these types of events.

THURSDAY, OCTOBER 11**ATLANTIC COUNTY FIRE ACADEMY****WEDNESDAY, OCTOBER 17****PASSAIC COUNTY FIRE ACADEMY****BUILDINGS ON FIRE: TACTICAL RISKS FOR THE FIRST-DUE**

New

C2D13**Instructor:** Chief Christopher J. Naum, SFPE, Chief of Training, Command Institute, Consultant, NIOSH Firefighter Fatality Investigation Program

Arriving companies and personnel at today's structure fires must be able to rapidly and accurately identify key elements of a building, process that data based upon a widening field of variables present on today's evolving fireground and implement timely actions that address prioritized actions requiring intervention. This program will present tactical risks and key considerations for the First-Due Company, Company Officer and Commander affecting and influencing operational risk management, command and tactical safety and tactical protocols based upon occupancy risks, reading the building and adaptive management principles. Integrated into the program are key LODD lessons and learnings for today's demanding fireground.

FRIDAY, NOVEMBER 2**SOMERSET COUNTY ESTA****CONDUCTING AGGRESSIVE SEARCHES****C2D02****Instructors:** Robert G. Moran, Fire Chief, Brewster, MA
John J. Lewis, Lieutenant (ret.) Passaic Fire Department

Conducting a primary search for trapped occupants is arguably the most critical and hazardous task to be achieved on the fireground. This program, which is designed for firefighters and fire officers of all levels, will discuss a variety of fireground considerations and operational search strategies and tactics that will enhance the ability of those assigned to this task to complete their mission in a safe and effective manner.

COURAGE TO BE SAFE TRAIN THE TRAINER

C1D15

Instructors: National Fallen Firefighter Foundation

This course is a provocative and moving presentation by the National Fallen Firefighters Foundation, through the Everyone Goes Home® Program, that is designed to change the culture of accepting the loss of firefighters as a normal occurrence.

Building on the untold story of line of duty death survivors, it reveals how family members must live with the consequences of a firefighter death. This presentation provides a focus on the need for firefighters and officers to change fundamental attitudes and behaviors in order to prevent line of duty deaths. The central theme promotes the courage to do the right thing in order to protect yourself and other firefighters and ensure that "Everyone Goes Home" at the end of the day.

Firefighters must have the courage to face a multitude of risks in order to save lives and protect their communities. Their courage allows them to willingly risk their own lives so that others can be saved. A different type of courage is required to stay safe in potentially dangerous situations, avoiding needless risks and tragic consequences.

Prerequisite: completion of the student version of this class.

MONDAY, NOVEMBER 5

MONMOUTH COUNTY FIRE ACADEMY

FDNY BLACK SUNDAY'S BRONX FIRE

C1D60

Instructor: FDNY Firefighter Eugene Stolorski, FDNY Rescue 3,
Operations Manager, Fire & Family Transport Foundation

This presentation tells the story of the tragic day that the New York City Fire Department suffered on January 23, 2005 in the Bronx, NY. A total of six Firefighters were trapped above the fire floor in the rear of a tenement. To avoid getting caught in the flash over that was about to occur, the firefighters were forced to bail out windows without the help of ropes and fall five stories to the alley below. Two firefighters were tragically killed with the four others critically injured. Along with another fatal fire in Brooklyn, NY, the day is now known throughout the fire service as the Black Sunday's Bronx Fire. The presentation gives a step by step detailed experience of a fire that went from normal to unimaginable conditions in the blink of an eye. Numerous lessons are shared from this day from two of the firefighters who survived to talk about it. The presentation includes audio of the radio transmissions that day along with video and photos of the building.

FIRE CAUSE RECOGNITION

New

C2D15

Instructor: Ron Kanterman, Fire Chief-Town of Wilton (CT)

This course is aimed at line personnel in recognizing causes of fire whether accidental or arson related and will serve as a good basic investigator's familiarization class. It will familiarize the attendees with the signs of arson through: basic fire behavior, the alarm, responding, the fire fight (ventilation, line placement, forcible entry, etc.), color of the smoke and flame, reaction of water on the fire, building construction, reading the crowd, role in the investigation, HTA fires, Clan Labs and much more. Photos and case histories enhance this class. Knowing the signs of arson, leads to safer fire ground operations.

FITNESS FOR THE FIRE SERVICE

New

C2D17

Instructor: Robert "Pip" Piparo, Lieutenant, City of New Brunswick Fire, Director, 555 Fitness

This class is intended for all emergency services personnel who believe that change starts from within. This program will discuss the current state of firefighter wellness in New Jersey and beyond. As well as a general discussion about fitness trends worldwide. The participants will leave with a greater understanding of health and wellness as it relates to a tactical athlete. They will learn how they can become the call for change within their department, as well as, how to inspire those around them to place fitness as a larger priority within their lives. No experience is necessary, however participants should wear workout attire, as this class does involve several hands on training experiences and a workout at the end of the day.

HIGH-RISE OPERATIONS 101

Updated

C2D11

Instructor: Ron Kanterman, Fire Chief-Town of Wilton (CT)

This course discusses the basics of fighting a high-rise building fire. Discussions revolve around engine company operations, truck company operations, command and control, construction, built-in fire protection and life safety systems. We also discuss the many ancillary duties that go with this manpower intensive operation. Companies will be assigned to staging, building systems, fire protection, utilities, lobby control, command support, elevator operations and many more tasks. A large amount of photos compliment this class along with a look at well known high-rise fires.

HOW THE GRATEFUL DEAD'S BUSINESS PRACTICES IMPROVED ORGANIZATIONAL PERFORMANCE

New

CE173

Instructor: Anthony Correia, Fire Chief/Director, Retired

Successful fire service operational performance is based on sound organizational practices and principles. While the fire service has developed many of its own practices, we have also adapted successful techniques from other business models and cultures; some being be very interesting and unique, but still useful.

This interactive discussion will detail how the Grateful Dead band and their business practices can improve fire department performance. Based on the book, "Everything I Know about Business I Learned from the Grateful Dead" by Barry Barnes Ph.D. Despite a perception that the band was a bunch of drug-fueled, psychedelic hippies, they were actually a very successful business organization. This program will provide an insight into how another business model can be used effectively in the fire service.

MONDAY, OCTOBER 15

IN HONOR OF THE CHARLESTON 9: A STUDY OF CHANGE FOLLOWING TRAGEDY

C2T31

Instructor: Dr. David Griffin, Captain, Charleston Fire Department (SC)

In Honor of The Charleston 9: A Study of Change Following Tragedy was developed and is presented by the first due engineer on the scene of June 18, 2007 where nine firefighters perished in a commercial structure fire in Charleston, South Carolina. This course is based off of the best-selling book with the identical name, which includes doctoral research that will help all organizations, whether public, private, for-profit, or non-profit to determine whether organizational change is needed in their respective organization. Students are taken on an emotional ride from the dark days of fighting fire in Charleston, SC, where nine firefighters perished in the line of duty, to today where the organization is now a national model for change. All organizations need to learn the lessons from Charleston to ensure that they do not experience this type of tragic incident. This course utilizes never before seen video footage from June 18, 2007, as well as the radio traffic that coincides.

LADDER COMPANY OPERATIONS AND FIREGROUND CONTROL AND ACCOUNTABILITY

New

C2D14

Instructors: Anthony Avillo, Deputy Chief (ret.) North Hudson Regional Fire & Rescue Director, Monmouth County Fire Academy
Mike Nasta, Deputy Chief (ret.) Newark Fire Department, Senior Fire Instructor, Bergen County Fire Academy

The morning portion of this course covers all aspects of Ladder Company operations including sections on forcible entry, search and rescue, laddering, ventilation, VEIS, overhaul, salvage, utility control, and apparatus positioning. Specific attention is given to the use of the Click System to properly select, position, and raise ground ladders with a precision not addressed in most fire departments or academies. Further, Vent, Enter, Isolate, and Search will be analyzed with an emphasis on the "close the door" doctrine, flow path control, and "go or no-go" guidelines.

The afternoon portion of this course covers what it takes to be an effective officer and an integral part of the organization, whether you are an Incident Commander or a task-level operator. Company and Battalion level integrity and accountability include proper decentralization of the fireground to maximize both accountability and information gathering which allows an addressing of strategies, accountability and safety. PAR's will be discussed as well as structural fire analysis, risk management and the Officer's role in supervision in order to meet our highest priority: Get 'em in safe, work 'em safe, and get 'em out safe.

MARINE FIREFIGHTING AWARENESS

Updated

C1D89

Instructor: Forest Herndon Jr., CEO and Senior trainer of MERE

Marine Firefighting is unarguably one of the most challenging of all firefighter disciplines. The incident complexity may vary, but in most cases, success is determined by the responders' level of preparation, training and general knowledge associated with the marine environment. This course will introduce the participants to key elements needed to operate effectively in the maritime arena, such as problems unique to marine responses, vessel types, ship configurations, communication challenges, specialized safety and tactical considerations to name a few. Knowledge gained will complement existing skill-sets while enabling emergency responders to mount an effective response.

PROFESSIONAL DEVELOPMENT OF THE NEXT GENERATION OF HIGH PERFORMING RECRUITS AND OFFICERS *(FORMERLY KNOWN AS: MENTORING AND MODELING FOR ORGANIZATIONAL SUCCESS)*

C2T32

Instructor: Anthony Correia, Fire Chief/Director, Retired

Developing the next generation of firefighters and fire officers doesn't come by osmosis. It comes from a structured program and processes that have been proven effective in fire service personnel development. This starts with a structured mentoring program. Whether a new recruit or working to the next grade of leadership, being mentored is crucial to being successful in your quest. Whether on the fireground or in the station, mentoring provides a guided process of how to learn from others who have been there. Mentoring has been identified as an important influence in professional development. The major function of mentoring is to promote individual development that is part of organizational success. Successful mentoring programs require proper understanding, planning, implementation and evaluation. Join the discussion on best practices on developing role model employees. Mentoring is key to developing a new member to becoming asset or lifetime liability to your organization. How to mentor, who mentors and how to interact with the rookie are all key on success or failure.

READING THE BUILDING AND OCCUPANCY RISK: BUILDING FACTS

Updated C1D86

Instructor: Chief Christopher J. Naum, SFPE, Chief of Training, Command Institute, Consultant, NIOSH Firefighter Fatality Investigation Program

Today's buildings and occupancies continue to present unique challenges to command and operating companies during combat structural fire engagement. Building and occupancy profiling, identifying occupancy risk versus occupancy type, construction methods, features, systems and components require new skill sets in reading the building and implementing predictive occupancy profiling for today's professional volunteer firefighters, company and command officers for effective and efficient fireground operations. Incorporating the Buildingsonfire FACTS concept for First-Arriving Construction, Tactics and Safety, this program provides an overview of the methodology and process to increase operational effectiveness and ensure critical building factors are identified, assessment and monitored throughout the incident.

STRESS FIRST AID FOR FIRE & EMS PERSONNEL

C2T37

Instructors: National Fallen Firefighter Foundation

Firefighter Life Safety Initiative #13 states: "Firefighters and their families should have access to counseling and psychological support." Stress First Aid (SFA), an important component of fulfilling this Life Safety Initiative, is a set of supportive actions designed to help emergency responders assist each other in reducing the negative impacts of stress. SFA was designed specifically to support firefighters, EMS, and rescue personnel. This module teaches SFA at the awareness level, focusing on:

- Understanding stress
- Recognizing how stress manifests in thoughts, words, and actions
- Delivering the "Seven C's" of Stress First Aid (Check, Coordinate, Cover, Calm, Connect, Competence, Confidence) to each other

This method of assisting a co-worker undergoing stress is practical, flexible, and can be tailored to the specific need.

MONDAY, DECEMBER 3

BURLINGTON COUNTY ESTC

THE DANGERS LURKING BELOW

C1T95

Instructors: Robert G. Moran, Fire Chief Brewster, MA
John J. Lewis, Lieutenant (ret.) Passaic Fire Department

Fires in a below grade areas create a multitude of dangers for responding firefighters many of which have been directly linked to multiple firefighter fatalities and injuries. Using information generated from recent UL and NIST studies, in-depth reviews of the hazards associated with these incidents and an analysis of the development and implementation of cutting-edge strategic and tactical action plans this program will convey to the attendees the knowledge, skills, and abilities required to address these unique and dangerous incidents in a safe and effective manner.

FRIDAY, OCTOBER 26

SALEM COUNTY FIRE ACADEMY

THE INFLUENCE OF BUILDING CONSTRUCTION AND FIRE RESEARCH ON COMMAND DECISION MAKING

Updated

C2T44

Instructors: Chief Christopher J. Naum, SFPE, Chief of Training, Command Institute, Consultant, NIOSH Firefighter Fatality Investigation Program

Building Construction, Occupancy Types & Risks along with Building Anatomy and the Predictability of Building Performance under fire conditions have a profound influence on the management of operations, identification of tactical protocols and deployment of resources. Understanding key inherent building performance characteristics and their relationships and variables in Command Decision-making methodologies and practices is fundamental to firefighting and incident management on today's evolving and demanding fireground.

SATURDAY, NOVEMBER 17

GLOUCESTER COUNTY FIRE ACADEMY

THINKING BEYOND FIRST DUE AT TOWNHOUSE FIRES

C1D97

Instructors: Robert G. Moran, Fire Chief, Brewster, MA
John J. Lewis, Lieutenant (ret.) Passaic Fire Department

The increased market for affordable homes throughout New Jersey has led to the increased construction of large scale Townhouse developments in urban and suburban environments. The lightweight materials and pre-engineered methods used in constructing these complexes and other inherent design weaknesses present unique fire suppression challenges. This program will take an in-depth look at these hazards while providing valuable fireground information concerning size up, incident management, pre-planning, and fire suppression strategy and tactics. The instructors will also examine and review the 2000 and 2015 Avalon Complex fires in Edgewater (NJ) in a roundtable type discussion focusing on the lessons learned during each event and the potential impact the 2015 Avalon fire will have on New Jersey fire codes.

FRIDAY, DECEMBER 7

BURLINGTON COUNTY ESTC

THINKING LIKE AN INCIDENT COMMANDER

C1T27

Instructor: Thomas Dunne, Deputy Chief, New York City Fire Department

What is an incident commander seeing, thinking, and feeling when he supervises a fire operation? How is his view of a fire different and how can his perspective make you a more effective firefighter, chief, or company officer? This interactive course develops key points in preparation, size up, fire ground strategy, command, and communications. Fire videos, fire ground radio transmissions, and hands on student fire simulations are used to develop the ability to perform rapid emergency decisions. The essential tools required to plan, organize, and manage fire strategies and tactics are highlighted. The concepts developed are vital for firefighters of all ranks. A chief, company officer, or firefighter who has the ability to think like an incident commander is better prepared to see the entire "fire picture" and perform safely and effectively at an operation.

FRIDAY, NOVEMBER 16

MORRIS COUNTY FIRE ACADEMY

UNDERSTANDING FIREGROUND BEHAVIOR

C2T38

Instructor: Thomas Dunne, Deputy Chief, New York City Fire Department

We've all learned how to fight the fire, but how many of us can accurately predict the behavior of the people affected by the fire? An understanding of their responses can be a great asset for performing a size up, organizing a building evacuation, or managing a catastrophic event. Learn how people typically react to the stress and uncertainty of a fire or other disaster and develop tools for safely managing them. Videos, case studies, and personal fire ground experiences are used to highlight the genetic and social factors that determine human responses to danger. Practical, hands-on tactics designed to facilitate search and evacuation, improve fire alarm response, guide people in smoke conditions, and enhance safe crowd control, are developed. We will develop practical, hands-on tactics designed to facilitate search and evacuation, improve fire alarm response, guide people in smoke conditions, and enhance safe crowd control.

"FIRE IS"

CE159

Instructors: Andrew Stratton, Captain, Cranford Fire Department
 Helge Nordtveit, Captain (ret.), Cranford Fire Department

This course will provide fire service personnel with a comprehensive overview of the "Fire Is" fire safety and survival education program. The goal of this program is not only reaching middle school-aged children as they begin to understand fire, but their parents/guardians and caregivers as well. The curriculum is centered on an internet-based learning system where children are assigned by their schools to view educational modules at home with their parents throughout the school year. This free program is designed to be done outside of the busy classroom thus not adding any course load pressure to the middle school teachers. This program covers aspects of the reality of what is experienced in a real structure fire, and how to survive. Upon completion of the program, the student takes an online test and is issued a certificate of Completion where a school test grade is then recorded. Session attendees will receive copies of the program, letters of endorsement from numerous schools in NJ who have heralded its success; a course curriculum guide; and simplified instruction on how to implement the program without taxing the schools' current curriculum or teacher workload. The instructor will present the media and public views on how fire safety and the fire service are portrayed in the media to children and their families currently thus showing the absolute need for a change in the fire service to reality based instruction as found in this program.

TUESDAY, OCTOBER 2

MIDDLESEX COUNTY FIRE ACADEMY

TUESDAY, OCTOBER 30

OCEAN COUNTY FIRE ACADEMY

YOUTH FIRESETTER AWARENESS

CE705

Instructors: Helge Nordtveit, Captain (ret.), Cranford Fire Department
 Joseph Ehrhardt, Firefighter, Nottingham Fire Company

Does your community have an issue with children using fire in unsupervised or dangerous ways? If you said "Yes", are you comfortable with your community's response? If you said "No", how educated are you on the issue and are you comfortable with a reliance on the status quo? If you said "I don't know", there are several steps that you can take immediately to learn about and respond to this often hidden, misunderstood, and potentially deadly and destructive issue.

Youth fire setting is a greatly under-reported occurrence on a broad spectrum that reaches from childhood curiosity to pathological compulsion. One factor that greatly contributes to the unsupervised and dangerous use of fire by children is the absence of fire safety awareness and practice in the home. This is an important social issue which involves family dynamics, peer relations, community awareness and a carefully structured, coordinated response.

The goal of this class is to describe what a public safety official needs to do to effectively address the issue of children using fire in unsupervised or dangerous ways.

PHYSIOLOGICAL AND MENTAL STRESSORS OF FIGHTING FIRES

C2T39

Instructor: Anthony Correia, Fire Chief/Director, Retired

The physiological and mental stressors of fighting fires is of significant concern to all involved. Exposure to fire and its byproducts is even more hazardous than ever before. Understanding the effects of being exposed to fire, smoke and carcinogens will help those involved to be better prepared to reduce these hazards. This program details these stressors as well as the relationship of cardiovascular disease, dehydration, cancer and chemical exposure from smoke and firefighting activities. This course discusses why being fit for duty, providing on scene and after incident rehabilitation services are important to help reduce the impact of these diseases when fighting fires. It will also cover the work of the NJ Healthy Firefighter coalition and provide an overview of the NJ Rehab guideline and how to utilize it for optimum rehab services.

This matrix is provided to assist you in determining which programs receive CEU credit toward renewal of Uniform Fire Code, Uniform Construction Code and Fire Instructor Certifications. An X indicates that credit will be issued to a specific certification discipline. Please note that more than one credit type can be issued for the same program. * Multiple Dwelling Inspector CEU for CE153, CE501, CE537, CE755, CE765, C2T23. The CEU credit awarded is identified in the eighth column. Please use this matrix to assist your program selection.
