Routinely check the Division of Fire Safety and the Kean Fire Safety Training Program for additional spring 2015 course programs, events and updates:

www.keanfiresafety.com and www.state.nj.us/dca/divisions/dfs/index.shtml

Telephone & Internet Registration

Registration into courses will be exclusively through the Web-based Course Registration Process. **Phone registration will not be accepted.** To register for courses using the Internet, go to the New Jersey State website, www.nj.gov and click away! For those of you who have previously created a myNewJersey account, simply log-in and enter yourself into the courses!

Registration Periods

The registration period begins on February 18, 2015, and continues through the semester. You may register for a maximum total of six (6) courses for the spring 2015 semester. In special cases you may register for additional classes over the maximum limit; however, registration will be permitted only on a space available basis and must be approved by the Division of Fire Safety staff at 609-777-3552. Credit will not be issued for repeat courses which have already been completed within your active certification cycle, with the exception of Code Update. The Division of Fire Safety reserves the right to limit the number of enrollments per person.

Withdraw From a Course - You must contact the Division of Fire Safety by phone to withdraw from a course. Withdrawals are not accepted via the internet. Please contact our office no later than 48 hours prior to the course date at 609-777-3552 between the hours of 9 a.m.- 3 p.m., Monday- Friday. Please provide the course name, date, location and your DFS six digit Fire Service Identification Number (1XXXXX) when withdrawing from a course. For your records, a withdraw notice will be automatically mailed to you. Failure to withdraw or receiving a no show on your record could result in the DFS revoking registration privileges for future classes. Please be courteous to other fire service members who are on course standby lists and have the opportunity to fill your seat in the event that you are unable to attend the class.

Course Confirmation Notice - If you do not receive a reminder within two days of the course date, please call the Division of Fire Safety to verify your registration at 609-777-3552. You may change and/or verify your address at any time on-line through your account personal information screen.

Multiple Dwelling Inspector Information - Information - UCC Fire Inspectors/Officials who also hold a Multiple Dwelling Inspector license may use any ONE of the Code Enforcement courses per three year license cycle for renewal of a multiple dwelling license. Further information may be obtained by calling 609-984-7834. The following course codes qualify for multiple dwelling inspector credit: CE017, CE021, CE032, CE063, CE092, CE170, CE501, CE547, CE755, CE763, CE765, CE774, CE582, C2T21, and C2T23.

*New Email Requirement

The Division of Fire Safety has modified its computer system to require that each person registering into a course must have a valid, permanent email address on the personal information page of their myNewJersey account. A permanent email address is one which will not be affected by a change in internet service provider, for example yahoo, gmail, aol or msn. Please check your personal information page to ensure a complete email address is displayed. For example johndoe@yahoo.com. Should you attempt to register without an email address on your record, the computer will present an error message which will instruct you to add an email address. **You will be prohibited from enrolling into the courses unless a complete, permanent email address is added to your record.** This new requirement is to ensure that the Division of Fire Safety has valid email addresses for each person registered. This will facilitate communicating to enrolled students should a course delivery be cancelled due to illness of the instructor or weather conditions. Please go to Registration Help and select Videos for a video on how to update your email address. <http://www.keanfiresafety.com/RegistrationHelp/Video.html>.

Web-based Registration - Online access through an individual myNewJersey account is now available at www.nj.gov. Through myNewJersey, you are now able to access and update your personal information, review and print your course enrollment list, review and print your completed course list, obtain a certificate of attendance for any course you have completed, review and print your current certification list and certificates, and review and print your courses completed for certification as well as register for current courses. For your assistance, video tutorials have been created to show you, screen by screen, how myNewJersey functions. To view these videos, from the home screen go to Registration Help and select Videos.

<http://www.keanfiresafety.com/RegistrationHelp/Video.html>.

Video tutorials are available on the following topics:

- How to create a myNewJersey account
- How to login to myNewJersey
- How to reset your password
- How to link an already created myNewJersey account
- The registration process
- How to update your email address

For students who have NEVER registered for courses online: From the home screen of www.keanfiresafety.com go to Registration Help and then click on myNewJersey Account Set-Up and Authorization to begin the registration process. <http://www.keanfiresafety.com/RegistrationHelp/NewAccount.html>. It is highly recommended that the video, "How to register for NJ Division of Fire Safety courses" be viewed prior to beginning to register in order to obtain important procedural information. For all other technical support, please call our office at 908-737-0230, Monday - Friday, 10 a.m. to 2 p.m.

For All Students - If you are unable to attend a course, please call 609-777-3552 to cancel as soon as possible so that someone else may use your space. Failure to cancel will be recorded and action may be taken. Do not call the academy where the course is being held to cancel. Credit will not be given for repeating a course within a three-year period, with the exception of Code Update. Although computer records are kept, you should keep a record of the courses you have completed. All courses begin promptly at 8:30 a.m. and conclude at approximately 3:30 p.m., unless otherwise indicated. In order to receive course credit, you must be present prior to the start of class and in the classroom for the entire course. Credit may not be granted if you arrive late, return late from lunch and breaks, leave early, or if you are not in the classroom while the course is in session. The use of electronic devices (i.e texting, ipad/laptop usage or any other electronic devices) that will disturb the instruction of the course delivery is strictly prohibited. Students who do not adhere to the guidelines will be asked to remove themselves from the classroom and will not receive credit for the enrolled course.

Confirmation of Attendance - Students can receive same-day confirmation of attendance at a course. If you are interested in receiving verification on the day you attend a course, you must bring your confirmation notice with you to class. After the class has concluded, the facilitator will stamp this notice as proof that you attended the course.

Dress Code - The Division of Fire Safety has instituted a dress code for attendance at courses. Appropriate dress includes long pants, shirts with sleeves, and shoes. Sleeveless shirts and shorts are not permitted at any DFS course, exam or conference. Facility representatives will enforce this dress code, and those who do not comply may be dismissed from the course and/or lose credit.

The Division of Fire Safety reserves the right to cancel a course for any reason related to program delivery. For example, a course may be canceled due to low enrollment.

APRIL

Fire Department Instructors Conference

April 20 – 25, 2015

MAY 7 AND 8, 2015

Middlesex County Fire Academy
1001 Fire Academy Drive
Sayreville, NJ 08872

Conference details and registration available February 23, 2015 at www.keanfiresafety.com.

This two-day course covers the job performance requirements of a Youth Firesetting Intervention Specialist II as detailed in the National Fire Protection Association Standard 1035. The course is designed for the person who is responsible or will be responsible for leading a Youth Firesetting Prevention and Intervention Program.

Material covered:

The difference between the titles Youth Firesetting Prevention and Intervention Specialist I and Youth

Firesetting Prevention and Interventions Specialist II

- Summarize the job performance requirements as detailed in NFPA Standard 1035
- Develop a youth firesetting prevention and intervention program in their own community
- Demonstrate how to evaluate a youth firesetting prevention and intervention program

FEMA

The NJ Division of Fire Safety strives to provide the NJ Fire Service and Code Enforcement officials with access to timely, informative and effective training and education. To stay current with changing demands and requirements placed on all first responders, the Division, in cooperation with Kean University, issues this Request for Course Proposals for upcoming semesters from qualified professionals interested in teaching and training the Fire Service community.

Specifically, the Division of Fire Safety requests proposals for continuing education courses related to training, education and communications issues relevant to fire service personnel throughout New Jersey. New proposals can cover a myriad of topics ranging from management and leadership skills to inspections and instructor specific courses. Current hot topics, including operations as well as fire service health and safety, also will be considered.

The Division encourages potential instructors to submit new ideas, teaching methods and programs as part of this call for proposals. Ultimately, these proposals will be judged on their timeliness, effectiveness, quality and relevance to the fire service. All proposals must include a detailed fee structure for development and execution.

This Request for Course Proposals is detailed and comprehensive. To be reviewed and/or considered for an upcoming teaching assignment, please submit all materials outlined in the Course Proposal checklist attached to this notice. Submissions that do not include all items referenced on the checklist will not be reviewed.

Please mail completed materials to:

Mrs. Karen A. Grant-Haber
Program Director
Kean University
Fire Safety Training Program
1000 Morris Avenue, T-106
Union, NJ 07083

For more information, contact the Fire Safety Training Program at:
908-737-0230 or via email at firesafety@kean.edu.

FIRE SAFETY TRAINING PROGRAM 2015 REQUEST FOR COURSE PROPOSAL

COURSE PROPOSAL CHECKLIST

TO ENSURE THE HIGHEST EVALUATION POSSIBLE, PLEASE COPY AND RETURN THE COMPLETED CHECKLIST AND ALL REFERENCED ITEMS ALONG WITH YOUR COURSE PROPOSAL.

- Course title is clearly identified in materials
- Course objectives are clearly defined
- Target audience and sub-codes to be addressed are indicated
- Detailed course abstract is included
- Sample and/or description of audio-visual materials is provided
- Resume and/or statement of qualifications are attached
- References and/or statement of experience are attached
- Detailed cost breakdown is included
- Two (2) copies of completed proposal are enclosed

FIRE SAFETY TRAINING PROGRAM 2015 REQUEST FOR COURSE PROPOSAL

ATLANTIC COUNTY FIRE TRAINING CENTER

5033 English Creek Avenue, Egg Harbor Township, NJ 08234
Phone: 609-407-6743, Fax: 609-407-6745

The Atlantic County Fire Training Center is part of the Anthony “Tony” Canale Training Center, which also houses Police and EMS Training. It was opened 21 years ago in 1994 and is comprised of a three story burn building, a six story drill tower, a confined space simulator, a flashover simulator, a drafting pond, a two story smoke house, an extrication pad, a roof operations simulator, and a four evolution propane pad. During 2014, the fire academy ran 79 courses in all areas of firematic training and trained 921 firefighters through its courses with a total of 1,621 firefighters using the facility. The academy is unique in that it is run by the Atlantic County Firefighters’ Association who has a 99 year training contract with the County to provide fire training.

The Atlantic County Fire Training Center has 36 instructors, who are employees of the Fire Fighters Association, and who with cooperation with Atlantic County continue to provide up to date training programs to keep our firefighters current in areas of operations. We continue to offer Firefighter I & II, Fire Officer I & II, Basic and Advanced Pump, Basic and Advanced Extrication, Rope Rescue I & II, Confined Space Operations, Engine and Ladder Company Operations, Flashover Awareness, Propane Operations, Emergency Vehicle Operations, SCBA Competency, RIT Awareness and Operations, Fire Inspector, Fire Instructor I & II, Basic Fire Investigation and all ICS courses on an annual basis.

Our goal is to provide the exceptional fire training to both our career and volunteer firefighters giving them the tools they need to survive, and make safe and effective decisions. Please feel free to visit our web site at www.atlanticcountyfireassoc.org.

COACHING FOR POSITIVE OUTCOMES

NEW CE063

Instructor: CAM Consulting Group

Goals provide structure and direction. In organizations, they are integral to aligning individual performance with strategic objectives. Personally, they keep us focused and moving forward. Whether we have formal or informal leadership roles, we can help develop the strengths of others so they can acquire the skills and knowledge needed to do their jobs effectively. Coaching, mentoring, and counseling are all part of the process of goal achievement. Participants will leave with a coaching style that motivates people to continually move towards goal achievement.

TUESDAY, MARCH 17

BURLINGTON COUNTY ESTC

THURSDAY, APRIL 23

MORRIS COUNTY FIRE ACADEMY

COMMUNICATING FOR RESULTS

NEW CE092

Instructor: CAM Consulting Group

We communicate all the time, but are we achieving the results we want? There are many communication mediums available today – in person, written (correspondence and email), telephone, video and teleconferences, etc. The challenges are several: choosing the appropriate way to share a message; showing sensitivity to others; creating understanding across generations; and focusing on results. The rewards are many when interpersonal dynamics are managed properly and respectfully. Participants will leave feeling more confident in their ability to interact professionally with others.

THURSDAY, MARCH 19

PASSAIC COUNTY FIRE ACADEMY

WEDNESDAY, APRIL 22

MIDDLESEX COUNTY FIRE ACADEMY

COMMUNITY RISK REDUCTION: INTEGRATING OUR EFFORTS

NEW N2N77

Instructor: Lt. Michael O. McLeieer, City of Olivet (MI) Fire Department

This course is intended to familiarize fire operations personnel with the concepts of community risk reduction, stressing their importance in today's tough economic times. It is more important than ever for the fire service to seek innovative mitigation strategies to manage call volume and improve firefighter and public safety. This course was created by Vision 20/20, a project of the Institution of Fire Engineers, USA in cooperation with the National Fallen Firefighters Foundation and the National Fire Academy. The goal of this course is to provide national strategies to be utilized at the local level for fire loss prevention.

MONDAY, MAY 18

MORRIS COUNTY FIRE ACADEMY

TUESDAY, MAY 19 - 8:00 A.M.

*KEAN UNIVERSITY, GREEN LANE - ROOM 206

*Please go to www.keanfiresafety.com to print a parking permit.

CULTURAL SENSITIVITY

CE021

Instructor: *Gabrielle Wanamaker, Trustworks*

Today's Fire Service Personnel are required to be culturally competent in order to be successful in their roles. The men, women and children in the communities you serve come from a wide variety of backgrounds, cultures, races and religions. The cultural norms that govern acceptable behavior may differ for the Fire Service Personnel and public. These differences may cause frustration for all involved. Through this highly interactive workshop, students will gain a better understanding of their own views and acquire new approaches to communicate more effectively with all kinds of people while encouraging their compliance to maintain safety.

FRIDAY, APRIL 10

BURLINGTON COUNTY ESTC

FIRE AND LIFE SAFETY EDUCATION THAT YOUR COMMUNITY CAN LIVE WITH

CE167

Instructors: *Helge Nordtveit, Captain (ret.), Cranford Fire Department*
Joseph Ehrhardt, Firefighter, Nottingham Fire Company

This course is designed for both volunteer and career members of the fire service. It provides an opportunity for local departments to shift focus to fire and life safety education and prevention by using creative programming to include all personnel in the process. Examples of successful low-cost programming will be described and presented as well as networking strategies to enlist cooperation from local government, school districts and influential community groups. Some dynamic class assignments will be included.

FRIDAY, MARCH 27

OCEAN COUNTY FIRE ACADEMY

TUESDAY, MAY 19

BERGEN COUNTY FIRE ACADEMY

"FIRE IS"**CE159**

Instructors: *Andrew Stratton, Captain, Cranford Fire Department*
Helge Nordtveit, Captain (ret.), Cranford Fire Department
Joseph Ehrhardt, Firefighter, Nottingham Fire Company

This course will provide fire service personnel with a comprehensive overview of the "Fire Is" fire safety education curriculum. The goal of this program, is not only reaching middle school-aged children as they begin to understand fire, but their parents/guardians and caregivers as well. The curriculum is centered on a home-based learning system employing television, the internet, and public volunteers to put a new face on fire safety. Session attendees will receive copies of the program, letters of endorsement from pilot schools in NJ who have heralded its success; a course curriculum guide; and simplified instruction on how to implement the program without taxing the schools' current curriculum or teacher workload. The instructor will present the media and public views on how fire safety and the fire service are portrayed in the media to children and their families.

FRIDAY, MARCH 20**MONMOUTH COUNTY FIRE ACADEMY****THURSDAY, APRIL 9****SOMERSET COUNTY ESTA****FRIDAY, APRIL 17****ATLANTIC COUNTY FIRE ACADEMY**

INFLUENCING WITHOUT AUTHORITY (WEBINAR)

CE166

Instructor: Corporate Training Group

In this webinar, you will focus on how to succeed when you don't have authority and control over execution. You will learn the strategies of successful influencers and how they leverage the power of networks, persuasion and preparation. You will learn how to influence people by using a Power Methods Model and an Influence Model to frame your plan for being a successful influencer and networker. You will practice influencing techniques and enhance your learning with exercises, assessment tools and group discussions.

Student participation is required and monitored throughout the webinar. Please note the following requirements: Each participant is required to use an individual computer with a strong internet connection. We recommend a wired connection to eliminate loss of connection. You may not receive credit if you fail to participate because your internet connection is disrupted. A valid email address is required in order to participate and this email address must be provided to the Kean Fire Safety Training Program as part of your registration. From the home page for www.keanfiresafety.com, go to Course Brochure and then click on Webinar Contact Information to enter your email and additional contact information. www.keanfiresafety.com/CourseBrochure/Webinar. Please note, this step is in addition to the DFS email requirement on myNewJersey.

Mobile devices may be used, but participants must download the appropriate free app for Adobe Connect. Please note, loss of a wireless connection/signal may result in a loss of credit for the course.

Each participant will receive at least one email with instructions and a link to the class and handouts. The email may come from an address at learnit.com. (For example, joe@learnit.com.) The instructions must be read and any links tested at least two days prior to the webinar. Each computer must have speakers and a microphone. As a courtesy to other students, if you know that you will not be able to attend, please withdraw at least 3 days in advance. For questions regarding the instructions, technical support or to withdraw from this course please call 908-737-0230.

TUESDAY, MAY 12

WEBINAR 8:30 A.M.* START

LEADERSHIP: A SELF ANALYSIS

CE061

Instructors: Michael J. Corbo, Deputy Chief (ret.), Pleasantville Fire Department Director, Atlantic County Fire Training Center

This course will provide students with the opportunity to look at the leadership qualities they already possess and the qualities they need to develop to become better leaders. We will examine the 11 characteristics that effective leaders possess and the traits that make up each characteristic. Each attendee will work through exercises to determine if they already exhibit any of the 11 characteristics and which traits they need to develop in order to become a more effective leader.

WEDNESDAY, APRIL 8

MIDDLESEX COUNTY FIRE ACADEMY

WEDNESDAY, MAY 6

CAMDEN COUNTY FIRE ACADEMY

LEADERSHIP IN THE REAL WORLD

CE168

Instructor: Robert T. Burns, Battalion Chief (ret.) FDNY

This class will involve a candid discussion of proven leadership principles and demonstrate how they can be applied in today's emergency service work environment. Unlike many leadership programs which only describe the characteristics and traits that leaders should possess, "Leadership in the Real World" combines cutting edge theories with skills and behaviors that students will be able to use "on the job", in their departments, every day. The curriculum will cover the four core concepts required for effective leadership: promote yourself, find your voice, know the tools of the leadership trade, and communicate effectively. The technical knowledge and no-nonsense skills presented in this class will serve as a foundation for effective leadership development.

WEDNESDAY, MARCH 25

MONMOUTH COUNTY FIRE ACADEMY

THURSDAY, MARCH 26

GLOUCESTER COUNTY FIRE ACADEMY

LEADING A HEALTHY TEAM

C2T20

Instructor: Gabrielle Wanamaker, Trustworks

Not many occupations require the physical ability and stamina required of the men and women in the Fire Service. While the physical demands are steep, often little is done to maintain the health and fitness of fire service personnel after the initial physical exam. Researchers and health professionals have determined that fire service professionals suffer from certain diseases at a higher rate than the general population. The addition of healthy practices such as maintaining fitness through exercise and good nutrition would support decreased illness and injuries to fire service personnel. In this course, we will examine particular health challenges and through the wisdom of a fitness expert, identify strategies leaders can take to support the health of their teams throughout the span of their careers. The course will incorporate current thinking in firefighter life safety. Course objectives include the importance of physical fitness in the fire service, identify the health concerns most likely experienced in the fire service, examine wellness practices in the fire service throughout the US, detail and demonstrate elements of a work-based and home-based physical fitness program, explain standards of good health, weight, BMI, nutrition, etc., provide healthier food options and offer suggestions for leaders on how to incorporate health maintenance into daily routines.

FRIDAY, APRIL 24

FRIDAY, MAY 8

GLOUCESTER COUNTY FIRE ACADEMY

PRESENTATION SKILLS FOR THE FIRE SERVICE; HOW TO PROVIDE AN EFFECTIVE PRESENTATION

C1C11

Instructor: *Adrian J. Cales, Asset Protection Manager, Public Service Enterprise Group, Detective Sergeant (ret.), Arson Investigations Unit, Bergen County Prosecutor's Office*

Want that new \$900,000 Tower Ladder? Thinking of asking for additional manpower? How best to save those firefighter jobs that the administration always wants to cut? As a fire service leader, it is inevitable that you will be called upon to make a departmental presentation, provide instruction to other fire fighters, or perhaps, you may have to speak in front of a civic group or a group of non-fire service people on a fire service topic. Feel comfortable with that idea? It's all about presentation skills. Knowing what to say is probably not the issue at hand, it's knowing how to say it, and how to present the topic and the material that often is the problem for the speaker. This course will focus on developing those skills.

SATURDAY, MAY 9

CAMDEN COUNTY FIRE ACADEMY

THURSDAY, MAY 21

MONMOUTH COUNTY FIRE ACADEMY

PUBLIC EDUCATION FIRE SAFETY AND PREVENTION PROGRAMS FOR FAMILIES AND SENIORS

CE151

Instructor: *Joseph Vallo, Jersey City Fire Department*

Developing a fire safety and prevention program for families and seniors requires the careful consideration of many factors. Seniors-individuals over 65 years of age-make up the fastest growing segment of the population and they have a variety of special needs. The traditional family unit is also changing to a growing diversity and may include multiple generations and even multiple families in one building. Attendees will learn to develop and implement a program focused on the varying needs of these groups. This course will emphasize preparedness, communication and consistency in educating families and the senior community. Information will be given on how to utilize volunteer and professional organizations as well as draw upon internal personnel, equipment and other resources. Attendees will also be provided with tips and drills to use in the field.

THURSDAY, MAY 7

BERGEN COUNTY FIRE ACADEMY

FRIDAY, MAY 15

CAMDEN COUNTY FIRE ACADEMY

WEDNESDAY, MAY 27

WARREN COUNTY FIRE ACADEMY

RECOGNIZING AND PREVENTING WORKPLACE HARASSMENT

CE146

Instructor: *Robert V. Hill, Sr., Director, Gloucester County College/Fire Academy*

What constitutes harassment? What is acceptable workplace behavior, and what are my rights as a victim or obligations as a supervisor? This timely course seeks to answer these and other critical questions. Through case study review, participation, and the use of assessment tools, the students will obtain a full understanding of employee rights as well as employer obligations, and be able to help prevent claims of harassment.

SATURDAY, APRIL 4

OCEAN COUNTY FIRE ACADEMY

SATURDAY, MAY 2

SOMERSET COUNTY ESTA

STRESS MANAGEMENT

NEW**CE017**

Instructor: *Gabrielle Wanamaker, Trustworks*

Being at your best every day requires using techniques to manage the stress often felt in emergency situations, that is, your own stress and the stress of others you are tasked with serving. This course is designed to offer an explanation of stress reactions and to provide a range of techniques to assist Emergency Services Personnel with healthy approaches to dealing with stress before, during and after incidents as well as on a daily basis. Managing Stress is an interactive course that draws upon the experiences and expertise of the participants and the presenters.

FRIDAY, APRIL 17

PASSAIC COUNTY FIRE ACADEMY

TEAM TURNAROUND

CE125

Instructor: *Gabrielle Wanamaker, Trustworks*

Changes in priorities and team structures can cause upheaval, making for difficult working conditions. This course is designed to help teams move through challenges to improve workplace relationships and outcomes. Participants will examine various models for achieving high performing teams in this highly interactive workshop. Case studies and role play will be used.

MONDAY, APRIL 13

ATLANTIC COUNTY FIRE ACADEMY

THE ART OF NEGOTIATING

NEW

CE170

Instructor: CAM Consulting Group

Negotiation is a part of life. Sometimes it is done formally, but most times it is done informally on the job, at home, or in social situations. Communication, respect, preparation, and focus are the heart and soul of the negotiation process. Successful negotiations allow two parties to resolve their differences and leave feeling like they both won. By effectively managing interpersonal dynamics, a situation can change from one of confrontation to one of cooperation. Participants will leave knowing how to manage differences and achieve success.

MONDAY, APRIL 20

BURLINGTON COUNTY ESTC

TIME MANAGEMENT (WEBINAR)

NEW

CE032

Instructor: Corporate Training Group

How do you manage your time with hectic workdays, constant interruptions and changing priorities? In the modern day workplace, projects need to be finished immediately, and there never seems to be enough time to get everything done. Priorities seem to change by the hour. How we manage our workflow has become an even more critical skill for today's worker. In this class, we will focus on key practices for managing your time effectively. You'll learn to prioritize projects among changing and competing demands for your time. You will also gain an understanding of how the current day workplace requires a constant retooling to work strategically instead of to work harder. You will learn innovative tools that can help you better align your daily activities to accomplish your goals.

Student participation is required and monitored throughout the webinar. Please note the following requirements: Each participant is required to use an individual computer with a strong internet connection. We recommend a wired connection to eliminate loss of connection. You may not receive credit if you fail to participate because your internet connection is disrupted. A valid email address is required in order to participate and this email address must be provided to the Kean Fire Safety Training Program as part of your registration. From the home page for www.keanfiresafety.com, go to Course Brochure and then click on Webinar Contact Information to enter your email and additional contact information. www.keanfiresafety.com/CourseBrochure/Webinar. Please note, this step is in addition to the DFS email requirement on myNewJersey.

Mobile devices may be used, but participants must download the appropriate free app for Adobe Connect. Please note, loss of a wireless connection/signal may result in a loss of credit for the course.

Each participant will receive at least one email with instructions and a link to the class and handouts. The email may come from an address at learnit.com. (For example, joe@learnit.com.) The instructions must be read and any links tested at least two days prior to the webinar. Each computer must have speakers and a microphone. As a courtesy to other students, if you know that you will not be able to attend, please withdraw at least 3 days in advance. For questions regarding the instructions, technical support or to withdraw from this course please call 908-737-0230.

TUESDAY, MAY 19

WEBINAR 8:30 A.M.* START

YOUTH FIRESETTER AWARENESS

CE705

Instructors: *Helge Nordtveit, Captain (ret.), Cranford Fire Department*
Joseph Ehrhardt, Firefighter, Nottingham Fire Company

This course deals with identifying juvenile firesetters and successful intervention and prevention approaches to address the problem. Motivation and legal issues on juvenile firesetting will be discussed. There will be an emphasis on how to establish a community-based program, as well as how to work within the framework of existing programs. The mechanics of how to report statistical information on juvenile firesetters to the Division of Fire Safety also will be provided.

WEDNESDAY, MARCH 18

BURLINGTON COUNTY ESTC

MONDAY, APRIL 13

SOMERSET COUNTY ESTA

CAUSE AND ORIGIN: A SYSTEMATIC AND COMPREHENSIVE INVESTIGATION

CE753

Instructor: *Adrian J. Cales, Asset Protection Manager, Public Service Enterprise Group, Detective Sergeant (ret.), Arson investigation Unit, Bergen County Prosecutor's Office*

The "students as investigators" approach focuses on actual fire investigation scenes, coupled with interactive classroom dialogue, and an exchange of ideas that enhance the students' skills in examining the fire scene. This is a "from the time of the call, to the time you leave the scene" outline of the components and essential elements which should be part of every fire scene examination. The program focuses on the elements necessary for documenting the entire scene, the examination and documentation of all potential sources of ignition, determining the fire's origin, and ultimately identifying the actual heat source, origin and cause of the fire in a thorough, complete and systematic manner. The resulting comprehensive investigation report will be suitable for use in criminal or civil litigation proceedings.

TUESDAY, APRIL 7

BURLINGTON COUNTY ESTC

CODE UPDATE

CE501

Instructor: *Patrick W. Bigoss, Camden County College, Coordinator Fire Science Program*

This seminar is a required course for working officials as part of the three year renewal cycle. Topics covered will include a focus on UFC 5:70 Subchapter 2 - permits and imminent hazards; a recap of statutes related to the resale requirements for carbon monoxide detectors, smoke detectors and fire extinguishers; the IFC 2006 regarding the use of appliances and emergency planning; and a review of chapter 27- hazardous materials.

FIRE INVESTIGATION: CONSIDERING THE ROLE OF NATURAL GAS AND/OR ELECTRICITY

CE760

Instructor: *Adrian J. Cales, Asset Protection Manager, Public Service Enterprise Group, Detective Sergeant (ret.), Arson Investigations Unit, Bergen County Prosecutor's Office*

This program is designed to provide you with a thorough, comprehensive and complete understanding of the properties of both natural gas and electricity, and the steps necessary for the examination of a fire scene where there is the potential that natural gas or electricity were involved in either the origin or the cause of the fire. The emphasis of the program will be on how any and all components associated with either natural gas or electricity services must be subject to a detailed examination at every scene to either eliminate them, or attribute them, as to having any role or involvement in the origin or the cause of the fire, and what steps are necessary for this process to be completed.

SATURDAY, MARCH 14

OCEAN COUNTY FIRE ACADEMY

FUNDAMENTALS OF AUTOMATIC SPRINKLER AND STANDPIPE SYSTEMS

CE765

Instructor: *Paul T. Dansbach, Fire Official, Borough of Rutherford*

The course will present timely and up to date material covering fundamental design and water supply requirements for automatic sprinkler and standpipe systems including when and why building fire pumps are required. The participants will be able to identify the various component parts of automatic sprinkler systems, standpipe systems and fire pumps. The importance of ensuring these fire protection systems are maintained in full service while identifying common system impairments and violations which lead to these fire protection systems being out of service will be reviewed throughout the course.

MONDAY, APRIL 6

OCEAN COUNTY FIRE ACADEMY

HAZARDOUS MATERIALS: FROM BULK STORAGE TO BIG BOX STORE**CE773****Instructor:** *Chief (ret.) Ron Kanterman, Gold Horn Associates*

New Jersey is one of the largest manufacturers of chemicals in the United States, second only to Texas. Add to that, home centers, gas stations, hardware stores and other mercantile outlets and we realize there are “hazmats” everywhere. This one day course will take participants through large bulk industrial facilities to mom & pop shops and occupancies in between. Topics covered are, but not limited to, Federal and State laws, applicable fire code sections (IFC Ch.27 and other applicable chapters), cited NFPA standards, identification systems, storage quantities and allowable limits, tanks and vessels, site surveys and inspection methodology and fire protection requirements. Case histories and discussion of failures in code enforcement are part of the day. Participants will come away with a good direction on the compass towards inspecting facilities containing hazardous materials.

FRIDAY, APRIL 17 - 8:00 A.M.***KEAN UNIVERSITY - WILKINS THEATER**

*Please go to www.keanfiresafety.com to print a parking permit.

HEALTH-CARE FACILITIES FIRE INSPECTIONS AND ITS IMPACT FOR A FIRE DEPARTMENT RESPONSE**CE749****Instructor:** *Jack Murphy, Jr., JJM & Associates, LLC*

Health-care facilities are a challenge for both a fire inspection and a fire department response. This course will provide a comprehensive review of various health-care facilities such as a hospital, nursing home, assisted living and ambulatory health-care occupancies. The life safety aspects will include, but are not limited to: defend-in-place strategy as well as emergency escape and rescue procedures, fire protection systems that are both active and passive, classification of hazardous building contents, special provisions such as accessibility issues with a multi-building complex, nuclear medicine, building systems such as medical gases for oxygen, nitrogen and nitrous oxide piping systems, laboratories, various medical equipment, and how the health-care structure interrelates with the NJ Uniform Fire Code.

TUESDAY, MARCH 24**MIDDLESEX COUNTY FIRE ACADEMY**

HOT ISSUES IN FIRE CODE ENFORCEMENT

CE758

Instructor: *Paul T. Dansbach, Fire Official, Borough of Rutherford*

The program will present material on means of egress requirements of the NJ Uniform Fire Code and the NJ Uniform Construction Code for special locking devices and door hardware. An understanding of how the installation of special locking devices and door hardware will provide the fire inspector with the understanding of how the devices shall be maintained to ensure the compliance with the requirements of Chapter 10 of the NJ IFC. ESFR sprinkler systems and residential sprinkler systems are systems which the fire inspector will encounter more frequently during inspections. Understanding the technology and the basic code requirements for these unique systems will ensure the systems are maintained in accordance with the applicable codes and standards. Commercial cooking operations present some inspection challenges to the fire inspector. The course will present the latest code changes and requirements for cookline exhaust systems and fire protection systems as well as reviewing previous codes and standards to which many of the existing systems have been installed. Inspection principles and a review of common violations will be presented.

LEGAL ISSUES FOR CODE ENFORCEMENT AND EMERGENCY SERVICE PERSONNEL

UPDATED CID74

Instructor: *Kathleen I. Kirvan, Esquire, Lieutenant, Mount Laurel Fire Department*

In emergency services, there are potential legal consequences for everything we do. The consequences can be civil or criminal and your actions can be intentional or unintentional. For Fire Officers and Fire Officials, in addition to your own actions, you can be held accountable for the actions or inactions of your subordinates. This course will address a number of legal issues, including, but not limited to: Freedom of Speech; social media policies; use of cameras and video footage from emergency scenes; laws against discrimination; code enforcement liability; and civil and criminal liability for Chiefs, Company Officers, Training Officers, Firefighters, Fire Officials and Fire Inspectors.

TUESDAY, APRIL 28

NOT JUST ARSON: WHAT ALL FIRE CODE ENFORCEMENT PERSONNEL SHOULD KNOW ABOUT NEW JERSEY'S CRIMINAL LAWS

NEW CE704

Instructor: *Jeffrey Cartwright, Assistant Prosecutor Essex County (ret.)*

New Jersey's Criminal Code contains specific statutes regarding the intentional setting of unlawful fires, such as Arson and Criminal Mischief. However, there are other less familiar criminal offenses relating to fire and explosions and fire-risky behavior of which Fire Officials and Fire Inspectors should be aware. This presentation will explain those statutes, and explore how they are important to fire code enforcement personnel – both in creating safer environments, and in keeping out of trouble when “things go wrong”.

PASSAIC COUNTY FIRE ACADEMY

THURSDAY, APRIL 2

MIDDLESEX COUNTY FIRE ACADEMY

PRINCIPLES OF MODERN BUILDING CONSTRUCTION

CE547

Instructor: *Michael S. Scardino, Chief, Winslow Fire Department*

Principles of Modern Building Construction is designed to raise the awareness of Fire Service personnel of the dangers inherent in the construction methods and materials prevalent today, and compare them with the construction methods of old. A brief review of construction types and methods is used as a platform to introduce new lightweight materials and methodology. Factors such as high-heat-release fuel loading, energy efficiency, thermo pane windows, tighter building envelopes, and the impacts these have on the time temperature curve will be introduced. This course encourages students to document new construction using digital photography. This will afford the firefighter advanced knowledge of vulnerabilities and exposures, and will hopefully facilitate better tactical decision making and outcome prediction.

RAISE YOUR RIGHT HAND AND REPEAT AFTER ME

C2T21

Instructor: *Kathleen Kirvan, Esquire, Lieutenant, Mount Laurel Fire Department*

This course will provide each attendee with insight into what to expect if he or she is ever called to testify as a witness or is personally sued because of his or her affiliation with the emergency services community. The course will take attendees through the pre-trial and trial process, what a party to lawsuit can expect and the rigors of testifying at trial. Students will also be provided with insight into the legal process of a court case by defining the similarities and differences between criminal and civil trials, and emphasizing the elements of trial testimony of both lay and expert witnesses. This course is for all members of the emergency services community, with a special emphasis on fire officials, fire inspectors, training officers and superior officers.

BERGEN COUNTY FIRE ACADEMY

REPORT WRITING: WHAT YOU SHOULD KNOW BEFORE YOU SIGN ON THE LINE

CE766

Instructor: *Adrian J. Cales, Asset Protection Manager, Public Service Enterprise Group, Detective Sergeant (ret.), Arson Investigations Unit, Bergen County Prosecutor's Office*

This course is designed for any fire service member who, as part of their duties, completes any report, form, or paperwork which memorializes an event and which becomes a matter of record. If you sign your name on a document, you should attend this program. The composition of a comprehensive and inclusive document detailing an incident is essential as the document often out lives the writer and becomes a permanent record. How much or how little to write, and writing with clarity so the reader understands what is written are the underlying objectives of the presentation. The program will cover common grammatical errors made in everyday writing, correct and effective use of punctuation, sentence structure, and actual report writing techniques. Also highlighted, is the preparation of effective curriculum vitae, the steps needed to qualify as and to provide expert testimony in a court under oath, and courtroom procedures.

THURSDAY, APRIL 9 - 8:00 A.M.

***KEAN UNIVERSITY, GREEN LANE - ROOM 206**

MIDDLESEX COUNTY FIRE ACADEMY

FRIDAY, MAY 1

CAMDEN COUNTY FIRE ACADEMY

TIPS AND TOOLS FOR EFFECTIVE INSPECTIONS

CE774

Instructor: *Patrick W. Bigoss, Camden County College, Coordinator Fire Science Program*

This program is intended to expand knowledge for newly appointed or recently re-appointed inspectors. It will also serve as a refresher for inspectors who perform a very limited number of inspections per year. Topics covered include duties and responsibility, interagency cooperation, inspection preplanning, performing the inspection, documenting the inspection and completing the inspection process. The program will also include a review of legal requirements, do's and don'ts and the consequences and remedies for inspectors who deviate from the stated requirements. There will be examples of violations and the proper reference under the IFC 2006. Seasoned inspectors taking the program for CEU requirements may find the program to be a re-statement of what they already know.

FRIDAY, MAY 8

PASSAIC COUNTY FIRE ACADEMY

UTILIZING ACCELERANT K-9'S IN FIRE ARSON INVESTIGATIONS

CE708

Instructors: *NJ Division of Fire Safety, Investigators of the NJ State Fire Marshal, Arson/K-9 Unit*

This seminar is designed to give the Fire Official or fire/arson investigator a thorough understanding of utilization of accelerant detection K-9's during fire investigations. Topics will include capabilities and limitations of K-9's, types of ignitable liquids able to be detected, interaction with laboratories, and an overview of K-9 training processes.

MONDAY, JUNE 1

MORRIS COUNTY FIRE ACADEMY

UTILIZING THE SCIENTIFIC METHOD IN FIRE INVESTIGATIONS

CE775

Instructors: *NJ Division of Fire Safety, Investigators of the NJ State Fire Marshal, Arson/K-9 Unit*

Use of the Scientific Method while performing fire investigations has taken on greater importance in recent years. This is due in part to a fundamental and better understanding of fire phenomenon and fire dynamics, as well as several landmark rulings in the court system. The courts are placing more emphasis on determining whether or not an expert in the field has used proper methodology when arriving at his/her conclusion. This course will provide an overview of the Scientific Method and its application by fire investigators when conducting their investigations because it is understood that their methodology could come under scrutiny.

2015 CHUBB SPRINKLER LAB COURSES

*Instructors: Tom LaCorte, CFPS, Assistant Vice President, Mid-Atlantic Zone
Senior Property Specialist
Rich Luongo, PE, Property Specialist*

The Chubb Services Corporation Loss Control Training Center is located in Warren, New Jersey. This facility is equipped with state-of-the-art fire protection equipment including sprinkler systems, fire pumps and fire detection systems. All courses at the Chubb training facility are hands-on.

MODULE ONE: WET PIPE AUTOMATIC SPRINKLER SYSTEMS AND WATER SUPPLIES

CE553

This hands-on class will cover the basics of automatic sprinkler systems including the wet pipe sprinkler system, the most common sprinkler system found in NJ. The components of the sprinkler system will be reviewed including piping, sprinklers, fire department connections, alarm check valves, and sprinkler control valves. Testing requirements of the UFC and NFPA 25 will be demonstrated including valve inspection, testing of sprinklers, and the main drain test. Water supplies for sprinkler systems will be overviewed including fire pumps, gravity tanks, and city water mains. A fire hydrant water flow test will be conducted by students and test results analyzed to determine adequacy for fire protection systems.

THURSDAY, APRIL 16

CHUBB LOSS CONTROL TRAINING CENTER

MODULE TWO: DRY PIPE, DELUGE AND PRE-ACTION SPRINKLER SYSTEMS

CE554

This course builds on Module 1 and covers the remaining sprinkler systems found in NJ. This course will overview and demonstrate the dry pipe valve; single, double and cycling on-off preaction valves; and the closed and open deluge systems. Topics covered will include the operational components, trip testing and resetting of valves, and occupancies where this equipment is found. The testing requirements of the UFC and NFPA 25 will be reviewed and demonstrated

TUESDAY, APRIL 28

CHUBB LOSS CONTROL TRAINING CENTER

MODULE THREE: WAREHOUSE FIRE PROTECTION AND FIRE DOOR TESTING

CE564

This class will review the NFPA fire protection standards for warehouses including NFPA 13, 1999 edition. Topics covered will include hydraulically calculated sprinkler systems, commodity classification, storage configurations i.e. rack and pallet, common problems found in warehouse occupancies, idle wood and plastic pallet storage, specialty sprinklers including ESFR, Large Drop, and ELO sprinklers will be demonstrated. Common types of fire doors and problems found in warehouses will be overviewed. Annual fire door testing procedures required by the UFC will be reviewed including a demonstration of a rolling steel fire door drop test.

THURSDAY, MAY 21**CHUBB LOSS CONTROL TRAINING CENTER**

MODULE FOUR: AUTOMATED FIRE PUMPS

CE581

This course will provide an overview of various fire pumping system components commonly found in automatic sprinkler and standpipe systems. Booster and fire pumps will be overviewed as well as vertical and horizontal centrifugal pumps. Fire pump diesel and electric controllers and drivers will be highlighted, including the testing requirements of the UFC and NFPA 25 which will be reviewed and demonstrated. Participants will conduct an annual fire pump test and review and analyze results.

THURSDAY, MAY 7**CHUBB LOSS CONTROL TRAINING CENTER**

MODULE FIVE: COMMERCIAL FIRE DETECTION SYSTEMS

CE582

This course will overview the components of a commercial fire detection and fire alarm system. Detector types such as heat and smoke detectors will be demonstrated. The proper location of fire detection devices will be overviewed. Location of manual pull stations, horn strobe and testing will be demonstrated. The class will include a hands-on review of the site fire protection equipment for compliance of NFPA and UFC standards.

THURSDAY, JUNE 4**CHUBB LOSS CONTROL TRAINING CENTER**

MODULE SIX: STANDPIPE SYSTEMS

CE761

This one day seminar is a mix of classroom and live demonstrations that review the standpipe systems. NFPA 14, IBC and NFPA 25 will be discussed, as well as installation and testing of standpipe systems. Hands on activity includes the flow testing of the standpipe valves as required by NFPA 14 and 25.

THURSDAY, JUNE 11**CHUBB LOSS CONTROL TRAINING CENTER**

Fire Instructor Certification Program

The Fire Service Instructor Safety courses are components of the New Jersey State Fire Service Instructor Credentialing Program. Information regarding the requirements for certification for Instructor Level 1, Instructor Level 2, and Special Instructor Certificate for Drill Ground Instructor can be obtained from the New Jersey Division of Fire Safety, Office of Training and Certification at 609-777-3552. Contact your local fire academy to determine additional course offerings. Completion of the Drill Ground Instructor program is a pre-requisite for admittance into the Fire Service Instructor Level 1 Written Examination. It is strongly suggested that individuals first complete the Fire Service Instructor Level 1 course prior to taking the written examination. Turnout gear is not required for the Drill Ground Instructor program or the written examinations. The courses needed for Fire Service Instructor Certification are being offered to those interested in certification as a Fire Service Instructor Level 1 or Level 2. An individual must successfully complete a program of instruction sanctioned by the Division of Fire Safety that meets the requirements of NFPA 1041, Standard for Fire Service Instructor Professional Qualifications, 2012 edition, utilizing the International Fire Service Training Association (IFSTA) publication titled "Fire and Emergency Services Instructor, 8th Edition." This publication is used for both the Level 1 and Level 2 instructional programs. The State written examination will be administered at the end of each sanctioned training program.

DRILL GROUND INSTRUCTOR

DGI01

Instructor: *Michael J. Corbo, Deputy Chief (ret.), Pleasantville Fire Department Director, Atlantic County Fire Training Center*

This one-day course is required for anyone wishing to obtain or renew a Drill Ground Instructor Certification issued by the Division of Fire Safety. The intent of this course is to ensure that instructors understand the safety issues and adopted NFPA Standards inherent in SCBA/Smokehouse and Live Burn firefighting training. The students will be provided with a basic understanding of identifying and correcting unsafe situations as they occur, and will review various safety concerns regarding drill ground instructional activities and student performance criteria. Turnout gear is not required for this course.

Fire Instructor 1 and 2 Certification Programs

New instructor certification programs are being adopted which will meet the requirements of NFPA 1041, Standard for Fire Service Instructor Professional Qualifications, 2012 edition, utilizing the International Fire Service Training Association (IFSTA) publication titled "Fire and Emergency Services Instructor, 8th edition." Both the Fire Service Instructor Level 1 and 2 programs are contained in this one publication. Students will be required to purchase the referenced textbook prior to attending the programs. Should a student take the programs after obtaining certification they will receive 4.0 CEU's Technical credit toward renewal of their fire instructor certification.

FIRE INSTRUCTOR 1

T1001

Instructor: *Michael J. Corbo, Deputy Chief (ret.), Pleasantville Fire Department Director, Atlantic County Fire Training Center*

This program is approved by the Division of Fire Safety to satisfy the instruction criteria for certification as Fire Instructor Level 1. The 40-hour program utilizes the IFSTA textbook referenced above, and is designed to present the student with basic skills to assemble course materials, use instructional aids and evaluation tools, review and adapt lesson plans, present a lesson from a prepared lesson plan, and review the administrative record keeping functions of the instructor. Successful completion of the program grants the student eligibility to take the State Fire Instructor Level 1 written examination. Please contact your county fire academy for additional deliveries of this certification course.

MARCH 10, 12, 14, 17, 19, 24, 26, 28 AND 31

ATLANTIC COUNTY FIRE ACADEMY

Start/End Times: Weekdays 6 p.m. - 10 p.m.
Weekends 8:30 a.m. - 4:30 p.m.

COURSE IS A TOTAL OF 39 HOURS

Students must contact IFSTA to order the Fire and Emergency Services Instructor, 8th edition publication prior to the first session of the class.

Contact Information:

Fire protection publications, Oklahoma State University, 930 N. Willis, Stillwater, Oklahoma 74078-8045.
tel: 1-800-654-4055; Fax: 405-744-8204. www.ifsta.org

FIRE INSTRUCTOR 2

T2001

Instructor: *Michael J. Corbo, Deputy Chief (ret.), Pleasantville Fire Department Director, Atlantic County Fire Training Center*

This program is approved by the Division of Fire Safety to satisfy the program of instruction criteria for certification as Fire Instructor Level 2. The 45-hour program utilizes the IFSTA textbook referenced below, and is designed to present the student with advanced skills to manage instructional resources, schedule training sessions, supervise and coordinate the activities of other instructors, evaluate subordinate instructors, develop and review lesson plans, develop evaluation instruments, and analyze the results of student evaluations. Successful completion of the program grants the student eligibility to take the State Fire Instructor Level 2 written examination. Please contact your county fire academy for additional deliveries of this certification course.

MAY 7, 12, 14, 16, 19, 21, 26, 28, 30 AND JUNE 2 ATLANTIC COUNTY FIRE ACADEMY

Start/End Times: Weekdays 6 p.m. - 10 p.m.
Weekends 8:30 a.m. - 4:30 p.m.

COURSE IS A TOTAL OF 47 HOURS

Students must contact IFSTA to order the Fire and Emergency Services Instructor, 8th edition publication prior to the first session of the class.

Contact Information:

Fire protection publications, Oklahoma State University, 930 N. Willis, Stillwater, Oklahoma 74078-8045.

INSTRUCTOR LEVEL 1 CERTIFICATION EXAMINATION

TIGSW

SATURDAY, APRIL 18	9 A.M. TO 12 P.M.	BURLINGTON COUNTY ESTC
THURSDAY, MAY 14	7 P.M. TO 10 P.M.	MORRIS COUNTY FIRE ACADEMY
SATURDAY, JUNE 13	9 A.M. TO 12 P.M.	MIDDLESEX COUNTY FIRE ACADEMY

INSTRUCTOR LEVEL 2 CERTIFICATION EXAMINATION

T2GSW

SATURDAY, APRIL 18	9 A.M. TO 12 P.M.	BURLINGTON COUNTY ESTC
THURSDAY, MAY 14	7 P.M. TO 10 P.M.	MORRIS COUNTY FIRE ACADEMY
SATURDAY, JUNE 13	9 A.M. TO 12 P.M.	MIDDLESEX COUNTY FIRE ACADEMY

The 100-question exam evaluates more advanced concepts of instruction from IFSTA, 8th Edition Fire & Emergency Services Instructor Textbook. The minimum passing score for Instructor level 1 and 2 Certification Examination is 70% correct.

FIRE OFFICER 1 WRITTEN CHALLENGE EXAM

FO1CH

The Division of Fire Safety will accept the Fire Officer 1 Challenge Exam Completion Certificate to meet the “Written Examination” credentialing requirements established for the issuance of the Fire Officer 1 Certification. Below are listed the exam dates and locations. The exam is three hours in length. Each participant must show a photo ID to be admitted into the exam room. Registration is permitted through your myNewJersey account. A confirmation notice will be sent to all who register. This exam is not endorsed by the NJ Department of Personnel and will not substitute for their requirements. This examination will not be administered orally to a candidate. The exam questions have been validated by the Division of Fire Safety and meet the requirements of the NFPA 1021 Standard.

Please note that Fire Officer 1 written examination candidates will have “**one**” attempt to pass the “challenge” examination. A minimum score of “70” is required to pass the examination. The “challenge” Fire Officer 1 Written Examination will be offered to individuals who meet the following criteria: Each person tested through this “challenge” examination must possess a valid “Incident Management Level 1” certification issued by the Division of Fire Safety, and have previously served, or currently be serving as a fire suppression fire officer within a fire company, fire department, fire district or fire brigade. To clarify, “Fire Officer” shall be a Lieutenant, Captain, Battalion Chief, Assistant Chief, Deputy Chief or Fire Chief. Fire Police line officer titles will not be accepted as meeting fire suppression line officer requirements.

SATURDAY, APRIL 18	9 A.M. TO 12 P.M.	BURLINGTON COUNTY ESTC
THURSDAY, MAY 14	7 P.M. TO 10 P.M.	MORRIS COUNTY FIRE ACADEMY
SATURDAY, JUNE 13	9 A.M. TO 12 P.M.	MIDDLESEX COUNTY FIRE ACADEMY

NOTICE

PHOTO IDENTIFICATION AND DFS I.D. NUMBER IS REQUIRED TO TAKE ALL EXAMINATIONS. STUDENTS WILL NOT BE ADMITTED WITHOUT PHOTO IDENTIFICATION. FAXES WILL NOT BE ACCEPTED. NO ELECTRONIC DEVICES, CELL PHONES, OR MOBILE DEVICES WILL BE ALLOWED IN EXAMINATION ROOMS. ONLY ONE EXAM WILL BE ADMINISTERED PER DAY.

The NJ Division of Fire Safety requires Fire Instructor recertification. Part of the recertification program requires completion of Continuing Education Units (CEUs) courses. The Continuing Education courses are one method to meet the requirements. Certified Fire Service Instructors will be given preference in registration for these courses.

BOMB THREAT AWARENESS AND RESPONSE

C1D91

Instructor: *Detective James Varick, NJSP Arson/Bomb Unit*

This course will provide an awareness level training to the student on the topic of explosive devices and response to incidents involving explosives and explosions. The primary focus of this course will be to allow the student to gain sufficient knowledge so that he/she is able to safely respond to and manage an incident involving explosives and explosions and then cooperate with those specifically tasked to mitigate or investigate these types of events (Bomb Squads). This course is intended for all members of the Fire Service including all first responders, Fire Officials, Fire Inspectors, and Fire Investigators. The program would be especially beneficial to Chief Officers who have overall command responsibilities at these scenes.

COMMUNICATING FOR RESULTS

NEW **CE092**

Instructor: *CAM Consulting Group*

We communicate all the time, but are we achieving the results we want? There are many communication mediums available today – in person, written (correspondence and email), telephone, video and teleconferences, etc. The challenges are several: choosing the appropriate way to share a message; showing sensitivity to others; creating understanding across generations; and focusing on results. The rewards are many when interpersonal dynamics are managed properly and respectfully. Participants will leave feeling more confident in their ability to interact professionally with others.

THURSDAY, MARCH 19

PASSAIC COUNTY FIRE ACADEMY

WEDNESDAY, APRIL 22

MIDDLESEX COUNTY FIRE ACADEMY

ESTABLISHING A FIELD TRAINING OFFICER PROGRAM

NEW **C2T25**

Instructor: *Lt. Walter Lewis, Orlando Fire Department*

With a decline in fires per year and newer, younger firefighters entering the fire service, experience and training are at a premium. As firefighters are educated and trained, there needs to be a follow up to ensure these firefighters understand their role. Paramedics are assigned to preceptors and new police officers are assigned to senior officers- both to ensure the new personnel “learn the ropes” while being evaluated for their performance. This program is designed to provide a framework for fire departments to develop and implement a Field Training Officer program. One that will measure performance, establish guidelines for FTOs to follow and limit liability of departments by ensuring adequate training, performance levels, department requirements are met. Attendees will be given sample forms to bring back to their respective agency for use.

FRIDAY, MAY 1

PASSAIC COUNTY FIRE ACADEMY

FIRE AND LIFE SAFETY EDUCATION THAT YOUR COMMUNITY CAN LIVE WITH

NEW **CE167**

Instructors: *Helge Nordtveit, Captain (ret.), Cranford Fire Department*
Joseph Ehrhardt, Firefighter, Nottingham Fire Company

This course is designed for both volunteer and career members of the fire service. It provides an opportunity for local departments to shift focus to fire and life safety education and prevention by using creative programming to include all personnel in the process. Examples of successful low-cost programming will be described and presented as well as networking strategies to enlist cooperation from local government, school districts and influential community groups. Some dynamic class assignments will be included.

FRIDAY, MARCH 27

TUESDAY, MAY 19

BERGEN COUNTY FIRE ACADEMY

FIRST DUE CONCERNS FOR STRIP MALL FIRES

C1D88

Instructors: *Robert G. Moran, Fire Chief, Brewster, MA*
John J. Lewis, NJ Division of Fire Safety

Fires in Strip Malls are unlike any other structure fire we respond to. The type of construction, interconnected occupancies, building size, command challenges, diverse occupancy types, and a potential for a lack of access to all sides of the structure all play a vital role in altering the common structure fire strategy and tactics typically deployed at these facilities. To enhance our ability to safely and effectively operate at fires within these buildings, this program will take an in-depth look at the fire problems associated with these structures, construction types, command responsibilities, size-up, pre-fire planning, and the strategy and tactics deployed to safely and effectively attack, control, and suppress these fires.

SATURDAY, APRIL 11

MORRIS COUNTY FIRE ACADEMY

FUNDAMENTALS OF AUTOMATIC SPRINKLER AND STANDPIPE SYSTEMS

CE765

Instructor: *Paul T. Dansbach, Fire Official, Borough of Rutherford*

The seminar will present timely and up to date material covering fundamental design and water supply requirements for automatic sprinkler and standpipe systems including when and why building fire pumps are required. The participants will be able to identify the various component parts of automatic sprinkler systems, standpipe systems and fire pumps. The importance of ensuring these fire protection systems are maintained in full service while identifying common system impairments and violations which lead to these fire protection systems being out of service will be reviewed throughout the course.

OCEAN COUNTY FIRE ACADEMY

GARDEN APARTMENT FIRE CHALLENGES

NEW
C2T26

Instructor: *Lt. Walter Lewis, Orlando Fire Department*

An apartment building fire offers a specific situation that challenges firefighters each time a fire occurs. A high-life hazard, lightweight construction, access and forcible entry are just some of the issues that we must deal with when we respond to these considerably difficult situations. This program will discuss the various points that make these fires the challenge they are and considerations to mitigate them and enhance operations at these fires. Student interaction is encouraged during this course with an emphasis on tactical considerations.

THURSDAY, APRIL 30

MIDDLESEX COUNTY FIRE ACADEMY

HOT HAY

C1C36

Instructor: Carl Heitmeyer, Deputy Chief, Elizabeth Fire Department

This course is for instructors who train with non-gas, straw fires. The focus is on providing the skills necessary to produce and control a variety of fire conditions in the burn building. A review of NJ and NFPA 1403 Live Fire Training Evolutions will provide examples of control methods to ensure compliance. A hands-on live burn will allow students to observe the effect of different techniques in producing varying levels of smoke, heat and flame. This course will not count for the DGI instructor certification or renewal.

**** A Completed Student Certification Statement is required and can be downloaded at www.keanfiresafety.com.**

**** Equipment required: Full turnout gear, SCBA, PASS device and a spare cylinder.**

THURSDAY, APRIL 9

BERGEN COUNTY FIRE ACADEMY

SATURDAY, APRIL 18

HUNTERDON COUNTY FIRE ACADEMY

INFLUENCING WITHOUT AUTHORITY (WEBINAR)

CE166

Instructor: Corporate Training Group

In this webinar, you will focus on how to succeed when you don't have authority and control over execution. You will learn the strategies of successful influencers and how they leverage the power of networks, persuasion and preparation. You will learn how to influence people by using a Power Methods Model and an Influence Model to frame your plan for being a successful influencer and networker. You will practice influencing techniques and enhance your learning with exercises, assessment tools and group discussions.

Student participation is required and monitored throughout the webinar. Please note the following requirements: Each participant is required to use an individual computer with a strong internet connection. We recommend a wired connection to eliminate loss of connection. You may not receive credit if you fail to participate because your internet connection is disrupted. A valid email address is required in order to participate and this email address must be provided to the Kean Fire Safety Training Program as part of your registration. From the home page for www.keanfiresafety.com, go to Course Brochure and then click on Webinar Contact Information to enter your email and additional contact information. www.keanfiresafety.com/CourseBrochure/Webinar Please note, this step is in addition to the DFS email requirement on myNewJersey.

Mobile devices may be used, but participants must download the appropriate free app for Adobe Connect. Please note, loss of a wireless connection/signal may result in a loss of credit for the course.

Each participant will receive at least one email with instructions and a link to the class and handouts. The email may come from an address at learnit.com. (For example, joe@learnit.com.) The instructions must be read and any links tested at least two days prior to the webinar. Each computer must have speakers and a microphone. As a courtesy to other students, if you know that you will not be able to attend, please withdraw at least 3 days in advance. For questions regarding the instructions, technical support or to withdraw from this course please call 908-737-0230.

TUESDAY, MAY 12

WEBINAR 8:30 A.M.* START

INSPECTION, TESTING, AND MAINTENANCE OF FIREFIGHTING EQUIPMENT AND APPARATUS

C1D90

Instructor: *David T. Phelan, NFPA, Certified Fire Prevention Specialist*

Whether it be a new purchase or the ongoing ownership of existing apparatus and equipment there are a variety of state agency regulations and industry standards which may not be clearly known or understood by NJ fire departments. Even the most conscientious departments may not be fully aware of how various state and federal regulations govern firefighting equipment. In some cases private or third party contractors are relied upon to 'do the right thing' and the host department doesn't have the knowledge or understanding to gauge if they are getting their money's worth to maintain their equipment and member's safety. This program is will bring together those regulations in a direct manner so any department can effectively gauge its compliance and implement changes without violating previously unknown regulations.

SATURDAY, APRIL 25

MIDDLESEX COUNTY FIRE ACADEMY

FRIDAY, MAY 8

CAMDEN COUNTY FIRE ACADEMY

LEADERSHIP IN THE REAL WORLD

CE168

Instructor: *Robert T. Burns, Battalion Chief (ret.) FDNY*

This class will involve a candid discussion of proven leadership principles and demonstrate how they can be applied in today's emergency service work environment. Unlike many leadership programs which only describe the characteristics and traits that leaders should possess, "Leadership in the Real World" combines cutting edge theories with skills and behaviors that students will be able to use "on the job", in their departments, every day. The curriculum will cover the four core concepts required for effective leadership: promote yourself, find your voice, know the tools of the leadership trade, and communicate effectively. The technical knowledge and no-nonsense skills presented in this class will serve as a foundation for effective leadership development.

WEDNESDAY, MARCH 25

MONMOUTH COUNTY FIRE ACADEMY

THURSDAY, MARCH 26

GLOUCESTER COUNTY FIRE ACADEMY

NJ FIRE SERVICE PREPAREDNESS

NEW C1D92

Instructor: *NJ Division of Fire Safety Staff*

This course will inform attendees of the various State and County level fire emergency resources and programs available to them. The Fire Resource Deployment Act along with the Fire Coordinator system will be explained and how to access the Fire Coordination system in their community. Fire mutual aid plans and agreements will be discussed. We will provide information on specialized firefighting equipment throughout the state and discuss recent large scale deployments.

MONDAY, MAY 11

TUESDAY, MAY 19

MORRIS COUNTY FIRE ACADEMY

PORT AND VESSEL FIRE FIGHTING CONSIDERATIONS AWARENESS

C1D89

Instructor: *Forest Herndon Jr., CEO and Senior Trainer of Maritime Emergency Response Educators, LLC*

Marine Firefighting is unarguably one of the most challenging of all firefighter disciplines. The incident complexity may vary, but in most cases, success is determined by the responders' level of preparation, training and general knowledge associated with the marine environment. This course will introduce the participants to key elements needed to operate effectively in the maritime arena, such as problems unique to marine responses, vessel types, ship configurations, communication challenges, specialized safety and tactical considerations to name a few. Knowledge gained will complement existing skill-sets while enabling emergency responders to mount an effective response.

SATURDAY, MAY 2

CAMDEN COUNTY FIRE ACADEMY

PRESENTATION SKILLS FOR THE FIRE SERVICE: HOW TO PROVIDE AN EFFECTIVE PRESENTATION

C1C11

Instructor: *Adrian J. Cales, Asset Protection Manager, Public Service Enterprise Group, Detective Sergeant (ret.), Arson Investigations Unit, Bergen County Prosecutor's Office*

Want that new \$900,000 Tower Ladder? Thinking of asking for additional manpower? How best to save those firefighter jobs that the administration always wants to cut? As a fire service professional, it is inevitable that you will be called upon to make a departmental presentation, provide instruction to other fire fighters, or perhaps, you may have to speak in front of a civic group or a group of non-fire service people on a fire service topic. Feel comfortable with that idea? It's all about presentation skills. Knowing what to say is probably not the issue at hand, it's knowing how to say it, and how to present the topic and the material that often is the problem for the speaker. This course will focus on developing those skills.

SATURDAY, MAY 9

CAMDEN COUNTY FIRE ACADEMY

THURSDAY, MAY 21

MONMOUTH COUNTY FIRE ACADEMY

PRIVATE DWELLING FIRES

NEW

C1T81

Instructors: *Robert G. Moran, Fire Chief, Brewster, MA
John J. Lewis, NJ Division of Fire Safety*

The most common and hazardous structure fire related responses are to fires in Private Dwellings. To ensure the safety of firefighters operating at these incidents and achieve our goal of applying a coordinated fire suppression attack we must be structured to initiate rapid and effective strategy and tactics on arrival. To prepare both firefighters and company officers in completing this task, this program will discuss the many variables to be considered when implementing successful fire suppression operations in private dwellings. Topics to be covered include; Construction and style types, size-up, typical hazards, forcible entry issues, search techniques, ventilation, and fire attack methods. The program will also include interactive group sessions utilizing first due video and photos where the attendees will have the opportunity to assume command, formulate an initial action plan, and implement their chosen strategy and tactics.

FRIDAY, APRIL 10

BERGEN COUNTY FIRE ACADEMY

SEARCH STRATEGIES AND TACTICS

NEW **CIT96**

Instructor: *Lt. Walter Lewis, Orlando Fire Department*

"All units, we have a report of victims trapped..." This radio report gets every firefighter a little more on edge. We operate with suspicion that people may be entrapped but when it is known, we tend to get more ramped up. This class will discuss the various types of structure fires we encounter and where victims can be located. Various topics will be covered to enhance the ability to search for trapped victims depending upon us to save them. The focus will be on decision making and prioritization for areas to search, as well as methods to improve our search tactics and strategies.

SATURDAY, MAY 2

CAPE MAY COUNTY FIRE ACADEMY

TEAM TURNAROUND

CE125

Instructor: *Gabrielle Wanamaker, Trustworks*

Changes in priorities and team structures can cause upheaval, making for difficult working conditions. This course is designed to help teams move through challenges to improve workplace relationships and outcomes. Participants will examine various models for achieving high performing teams in this highly interactive workshop. Case studies and role play will be used.

MONDAY, APRIL 13

ATLANTIC COUNTY FIRE ACADEMY

THE ART OF NEGOTIATING

NEW **CE170**

Instructor: *CAM Consulting Group*

Negotiation is a part of life. Sometimes it is done formally, but most times it is done informally on the job, at home, or in social situations. Communication, respect, preparation, and focus are the heart and soul of the negotiation process. Successful negotiations allow two parties to resolve their differences and leave feeling like they both won. By effectively managing interpersonal dynamics, a situation can change from one of confrontation to one of cooperation. Participants will leave knowing how to manage differences and achieve success.

MONDAY, APRIL 20

BURLINGTON COUNTY ESTC

TIME MANAGEMENT (WEBINAR)

NEW CE032

Instructor: *Corporate Training Group*

How do you manage your time with hectic workdays, constant interruptions and changing priorities? In the modern day workplace, projects need to be finished immediately, and there never seems to be enough time to get everything done. Priorities seem to change by the hour. How we manage our workflow has become an even more critical skill for today's worker. In this class, we will focus on key practices for managing your time effectively. You'll learn to prioritize projects among changing and competing demands for your time. You will also gain an understanding of how the current day workplace requires a constant retooling to work strategically instead of to work harder. You will learn innovative tools that can help you better align your daily activities to accomplish your goals.

Student participation is required and monitored throughout the webinar. Please note the following requirements: Each participant is required to use an individual computer with a strong internet connection. We recommend a wired connection to eliminate loss of connection. You may not receive credit if you fail to participate because your internet connection is disrupted. A valid email address is required in order to participate and this email address must be provided to the Kean Fire Safety Training Program as part of your registration. From the home page for www.keanfiresafety.com, go to Course Brochure and then click on Webinar Contact Information to enter your email and additional contact information. www.keanfiresafety.com/CourseBrochure/Webinar. TUESDAY, MAY 19 - 8:00 A.M.

***KEAN UNIVERSITY, GREEN LANE - ROOM 206**

*Please go to www.keanfiresafety.com to print a parking permit.

CULTURAL SENSITIVITY

CE021

Instructor: *Gabrielle Wanamaker, Trustworks*

Today's Fire Service Personnel are required to be culturally competent in order to be successful in their roles. The men, women and children in the communities you serve come from a wide variety of backgrounds, cultures, races and religions. The cultural norms that govern acceptable behavior may differ for the Fire Service Personnel and public. These differences may cause frustration for all involved. Through this highly interactive workshop, students will gain a better understanding of their own views and acquire new approaches to communicate more effectively with all kinds of people while encouraging their compliance to maintain safety.

FRIDAY, APRIL 10

BURLINGTON COUNTY ESTC

ELEVATOR RESCUE AND EMERGENCIES

C1D33

Instructors: *Captain Daniel F. Speigel, Fire Captain, City of Wildwood Fire Department*
Mark Becica, EMT/Firefighter, Baltimore City, Maryland

Emergency personnel with inadequate training in responding to stalled elevators are exposed to an increases risk of injury and death to both the victims and themselves. Learn how to safely and effectively remove passengers from stalled elevators as well as basic elevator procedures. Topics include nomenclature, safety, how an elevator functions, construction, elevator safety devices, possible equipment needed, initial response steps, lock-out/tag-out procedures, elevator doors use of hoist way door keys / pick tools, poling, firemen service (phase 1/phase 2) and manually lowering a hydraulic elevator. Current UCC and UFC regulations regarding elevators will also be discussed.

MONDAY, MAY 11

MIDDLESEX COUNTY FIRE ACADEMY

FDNY BLACK SUNDAY'S BRONX FIRE

C1D60

Instructor: *FDNY Firefighter Eugene Stolowski, FDNY Rescue 3, Operations Manager, Fire & Family Transport Foundation*

This presentation tells the story of the tragic day that the New York City Fire Department suffered on January 23, 2005 in the Bronx, NY. A total of six Firefighters were trapped above the fire floor in the rear of a tenement. To avoid getting caught in the flash over that was about to occur, the firefighters were forced to bail out windows without the help of ropes and fall five stories to the alley below. Two firefighters were tragically killed with the four others critically injured. Along with another fatal fire in Brooklyn, NY, the day is now known throughout the fire service as the Black Sunday's Bronx Fire. The presentation gives a step by step detailed experience of a fire that went from normal to unimaginable conditions in the blink of an eye. Numerous lessons are shared from this day from two of the firefighters who survived to talk about it. The presentation includes audio of the radio transmissions that day along with video and photos of the building.

LEADING A HEALTHY TEAM

C2T20

Instructor: Gabrielle Wanamaker, Trustworks

Not many occupations require the physical ability and stamina required of the men and women in Fire Service. While the physical demands are steep, often little is done to maintain the health and fitness of fire service personnel after the initial physical exam. Researchers and health professionals have determined that fire service professionals suffer from certain diseases at a higher rate than the general population. The addition of healthy practices such as maintaining fitness through exercise and good nutrition would support decreased illness and injuries to fire service personnel. In this course, we will examine particular health challenges and through the wisdom of a fitness expert, identify strategies leaders can take to support the health of their teams throughout the span of their careers. The course will incorporate current thinking in firefighter life safety. Course Objectives include the importance of physical fitness in the fire service, identify the health concerns most likely experienced in the fire service, examine wellness practices in the fire service throughout the US, detail and demonstrate elements of a work-based and home-based physical fitness program, explain standards of good health, weight, BMI, nutrition, etc., provide healthier food options and offer suggestions for leaders on how to incorporate health maintenance into daily routines.

STRESS MANAGEMENT

NEW CE017

Instructor: *Gabrielle Wanamaker, Trustworks*

Being at your best every day requires using techniques to manage the stress often felt in emergency situations, that is, your own stress and the stress of others you are tasked with serving. This course is designed to offer an explanation of stress reactions and to provide a range of techniques to assist Emergency Services Personnel with healthy approaches to dealing with stress before, during and after incidents as well as on a daily basis. *Stress Management* is an interactive course that draws upon the experiences and expertise of the participants and the presenters.

FRIDAY, APRIL 17

PASSAIC COUNTY FIRE ACADEMY

TEAM TURNAROUND

CE125

Instructor: *Gabrielle Wanamaker, Trustworks*

Changes in priorities and team structures can cause upheaval, making for difficult working conditions. This course is designed to help teams move through challenges to improve workplace relationships and outcomes. Participants will examine various models for achieving high performing teams in this highly interactive workshop. Case studies and role play will be used.

MONDAY, APRIL 13

ATLANTIC COUNTY FIRE ACADEMY

THE ART OF NEGOTIATING

NEW CE170

Instructor: *CAM Consulting Group*

Negotiation is a part of life. Sometimes it is done formally, but most times it is done informally on the job, at home, or in social situations. Communication, respect, preparation, and focus are the heart and soul of the negotiation process. Successful negotiations allow two parties to resolve their differences and leave feeling like they both won. By effectively managing interpersonal dynamics, a situation can change from one of confrontation to one of cooperation. Participants will leave knowing how to manage differences and achieve success.

MONDAY, APRIL 20

BURLINGTON COUNTY ESTC

THE COMPANY AND COMMAND OFFICER IN 2015 AND BEYOND**NEW CID94**

***Instructor: Christopher J. Naum, SFPE Chief of Training, Command Institute, Tactical Theorist
Contributing Editor, Firehouse Magazine and Firehouse.com Technical Consultant***

A thought provoking presentation and interactive discussion on the increasing demands for today's emerging, practicing or future Company and Command Officers and the challenge on how to meet tomorrows demands today through self-determination and personal accountability. A look at the emerging fireground in 2015 and beyond and how that translates to the increased needs for advanced training, skill sets and operational models built upon the most current and timely of fire service issues, emerging research and dialog.

SATURDAY, MAY 30**MIDDLESEX COUNTY FIRE ACADEMY**

UTILITY EMERGENCIES AND FIRES: WHAT YOU NEED TO KNOW

C2T12

Instructor: *Frank Montagna, Battalion Chief, NYFD Bureau of Training*

Firefighters are not utility experts, but do respond first to utility incidents, and will have to make life and death decisions before the utility experts arrive on scene. There is certain “need to know” information they must have to make intelligent, safe decisions, to ensure that responding firefighters and the people they are sworn to protect are safe. This course is designed to heighten the awareness of responding firefighters by pointing out the obvious, and some not so obvious hazards related to these incidents. This course identifies the hazards and shows how this knowledge can positively affect and guide their decisions at these incidents. The course material is designed to help prevent a relatively minor utility emergency from becoming a major one and to help keep a major incident from becoming a tragedy.

SATURDAY, APRIL 11

OCEAN COUNTY FIRE ACADEMY

UTILIZING ACCELERANT K-9's IN FIRE ARSON INVESTIGATIONS

CE708

Instructors: *NJ Division of Fire Safety, Investigators of the NJ State Fire Marshal, Arson/K-9 Unit*

This seminar is designed to give the Fire Official or fire/arson investigator a thorough understanding of utilization of accelerant detection K-9's during fire investigations. Topics will include capabilities and limitations of K-9's, types of ignitable liquids able to be detected, interaction with laboratories, and an overview of K-9 training processes.

MONDAY, JUNE 1

MORRIS COUNTY FIRE ACADEMY

UTILIZING THE SCIENTIFIC METHOD IN FIRE INVESTIGATIONS

CE775

Instructors: *NJ Division of Fire Safety, Investigators of the NJ State Fire Marshal, Arson/K-9 Unit*

Use of the Scientific Method while performing fire investigations has taken on greater importance in recent years. This is due in part to a fundamental and better understanding of fire phenomenon and fire dynamics, as well as several landmark rulings in the court system. The courts are placing more emphasis on determining whether or not an expert in the field has used proper methodology when arriving at his/her conclusion. This course will provide an overview of the Scientific Method and its application by fire investigators when conducting their investigations because it is understood that their methodology could come under scrutiny.

TUESDAY, MAY 12

MONMOUTH COUNTY FIRE ACADEMY

WEDNESDAY, MAY 20

SOMERSET COUNTY ESTA

FIVE STAR COMMAND AND FIREFIGHTER SAFETY

NEW C1D95

Instructor: *Christopher J. Naum, SFPE Chief of Training, Command Institute, Tactical Theorist Contributing Editor, Firehouse Magazine and Firehouse.com Technical Consultant*

This program will present the concepts and methodologies of Five Star Command and the five (5) fundamental core relationships of; Building Construction, Risk Management, Firefighter Behaviors, Incident Operations and Situational Safety. These five fundamental core elements provide an intelligent and safe approach towards unified fireground safety, risk reduction, operational excellence and a template for focused training and curriculum development for today's evolving fireground and operational demands incorporating an Adaptive Fireground Management model.

FRIDAY, MAY 29

PASSAIC COUNTY FIRE ACADEMY

LEGAL ISSUES FOR CODE ENFORCEMENT AND EMERGENCY SERVICE PERSONNEL

UPDATED C1D74

Instructor: *Kathleen I. Kirvan, Esquire, Lieutenant, Mount Laurel Fire Department*

In emergency services, there are potential legal consequences for everything we do. The consequences can be civil or criminal and your actions can be intentional or unintentional. This course will address a number of legal issues, including, but not limited to, Freedom of Speech, laws against discrimination and civil and criminal liability for chiefs, company officers, firefighters or training officers. Personnel taking this course will engage in a very interactive process using case studies.

TUESDAY, APRIL 28

CAMDEN COUNTY FIRE ACADEMY

FRIDAY, MAY 29

MORRIS COUNTY FIRE ACADEMY

REGULATORY REQUIREMENTS FOR FIRE DEPARTMENTS

C1D75

Instructor: *David T. Phelan, NFPA, Certified Fire Prevention Specialist*

Are you a newly elected fire officer or chief? Does the vast amount of laws and regulations governing your operations confuse or even concern you? This program is designed to bring those various Federal and State regulations together to raise your awareness and help you achieve compliance. Topics such as NJ-PEOSH, Training, Equipment Maintenance and Personnel will be discussed along with some experiences and lessons learned by agencies who became the subject of injury investigations. The time to begin preparing is before you have a problem and upon completion of this program you will have a better understanding of rules and regulations enforced by other non-fire agencies and how they could impact you and your department.

FRIDAY, MAY 1

MONMOUTH COUNTY FIRE ACADEMY

STRESS MANAGEMENT

NEW CE017

Instructor: *Gabrielle Wanamaker, Trustworks*

Being at your best every day requires using techniques to manage the stress often felt in emergency situations, that is, your own stress and the stress of others you are tasked with serving. This course is designed to offer an explanation of stress reactions and to provide a range of techniques to assist Emergency Services Personnel with healthy approaches to dealing with stress before, during and after incidents as well as on a daily basis. *Stress Management* is an interactive course that draws upon the experiences and expertise of the participants and the presenters.

FRIDAY, APRIL 17

PASSAIC COUNTY FIRE ACADEMY

TIME MANAGEMENT (WEBINAR)

NEW CE032

Instructor: Corporate Training Group

How do you manage your time with hectic workdays, constant interruptions and changing priorities? In the modern day workplace, projects need to be finished immediately, and there never seems to be enough time to get everything done. Priorities seem to change by the hour. How we manage our workflow has become an even more critical skill for today's worker. In this class, we will focus on key practices for managing your time effectively. You'll learn to prioritize projects among changing and competing demands for your time. You will also gain an understanding of how the current day workplace requires a constant retooling to work strategically instead of to work harder. You will learn innovative tools that can help you better align your daily activities to accomplish your goals.

Student participation is required and monitored throughout the webinar. Please note the following requirements: Each participant is required to use an individual computer with a strong internet connection. We recommend a wired connection to eliminate loss of connection. You may not receive credit if you fail to participate because your internet connection is disrupted. A valid email address is required in order to participate and this email address must be provided to the Kean Fire Safety Training Program as part of your registration. From the home page for www.keanfiresafety.com, go to Course Brochure and then click on Webinar Contact Information to enter your email and additional contact information. www.keanfiresafety.com/CourseBrochure/Webinar. Please note, this step is in addition to the DFS email requirement on myNewJersey.

Mobile devices may be used, but participants must download the appropriate free app for Adobe Connect. Please note, loss of a wireless connection/signal may result in a loss of credit for the course.

Each participant will receive at least one email with instructions and a link to the class and handouts. The email may come from an address at learnit.com. (For example, joe@learnit.com.) The instructions must be read and any links tested at least two days prior to the webinar. Each computer must have speakers and a microphone. As a courtesy to other students, if you know that you will not be able to attend, please withdraw at least 3 days in advance. For questions regarding the instructions, technical support or to withdraw from this course please call 908-737-0230.

TUESDAY, MAY 19

SATURDAY, MAY 30

MIDDLESEX COUNTY FIRE ACADEMY

"FIRE IS"**CE159**

Instructors: *Andrew Stratton, Captain, Cranford Fire Department*
Helge Nordtveit, Captain (ret.), Cranford Fire Department
Joseph Ehrhardt, Firefighter, Nottingham Fire Company

This course will provide fire service personnel with a comprehensive overview of the "Fire Is" fire safety education curriculum. The goal of this program, is not only reaching middle school-aged children as they begin to understand fire, but their parents/guardians and care givers as well. The curriculum is centered on a home-based learning system employing television, the internet, and public volunteers to put a new face on fire safety. Session attendees will receive copies of the program, letters of endorsement from pilot schools in NJ who have heralded its success; a course curriculum guide; and simplified instruction on how to implement the program without taxing the schools' current curriculum or teacher workload. The instructor will present the media and public views on how fire safety and the fire service are portrayed in the media to children and their families.

FRIDAY, MARCH 20**MONMOUTH COUNTY FIRE ACADEMY****THURSDAY, APRIL 9****SOMERSET COUNTY ESTA****FRIDAY, APRIL 17****ATLANTIC COUNTY FIRE ACADEMY****YOUTH FIRESETTER AWARENESS****CE705**

Instructors: *Helge Nordtveit, Captain (ret.), Cranford Fire Department*
Joseph Ehrhardt, Firefighter, Nottingham Fire Company

This course deals with identifying juvenile firesetters and successful intervention and prevention approaches to address the problem. Motivation and legal issues on juvenile firesetting will be discussed. There will be an emphasis on how to establish a community-based program, as well as how to work within the framework of existing programs. The mechanics of how to report statistical information on juvenile firesetters to the Division of Fire Safety also will be provided.

WEDNESDAY, MARCH 18**BURLINGTON COUNTY ESTC****MONDAY, APRIL 13****SOMERSET COUNTY ESTA**

DIVISION/GROUP SUPERVISOR

N2N20

Instructor: *T. Steve King, Deputy OEM Coordinator, Burlington County*

A non-tactical course designed to familiarize the student with the roles and duties of a Division/Group Supervisor responding to incidents in New Jersey. The class is designed for the fire service and the information will be valuable to emergency responders throughout the State as it focuses on an all-hazard approach. This course will be of particular value for both chief and company officers or those aspiring to have a greater understanding of the more daily practical applications of incident management systems.

FRIDAY, MAY 8

MIDDLESEX COUNTY FIRE ACADEMY

ICS FORMS AND INCIDENT ACTION PLAN

C2T13

Instructor: *Dennis Kappler, Chief Public Safety Communicator, Gloucester County ERC*

This course shall focus on the use of the most commonly used forms in the Incident Command System as recognized by the NIMS. The program shall include a fundamental review for Command, Command Staff, and General Staff Roles and Responsibilities. Through active participation the students attending the course will work through the various and most commonly used ICS Forms and through several table top activities develop Incident/Event Action Plans for operational periods. Participants will also work through the Planning “P” and Planning cycle. The course will also allow those attending to work in an All-Hazards model between Fire, EMS, Law Enforcement, Public Health, and Emergency Management.

Target audience: those first responders who while at an incident may be responsible for generating or producing ICS forms as part of current incident documentation or the development of an IAP for an Incident/or event.

TUESDAY, APRIL 21

BURLINGTON COUNTY ESTC

STRIKE TEAM LEADER

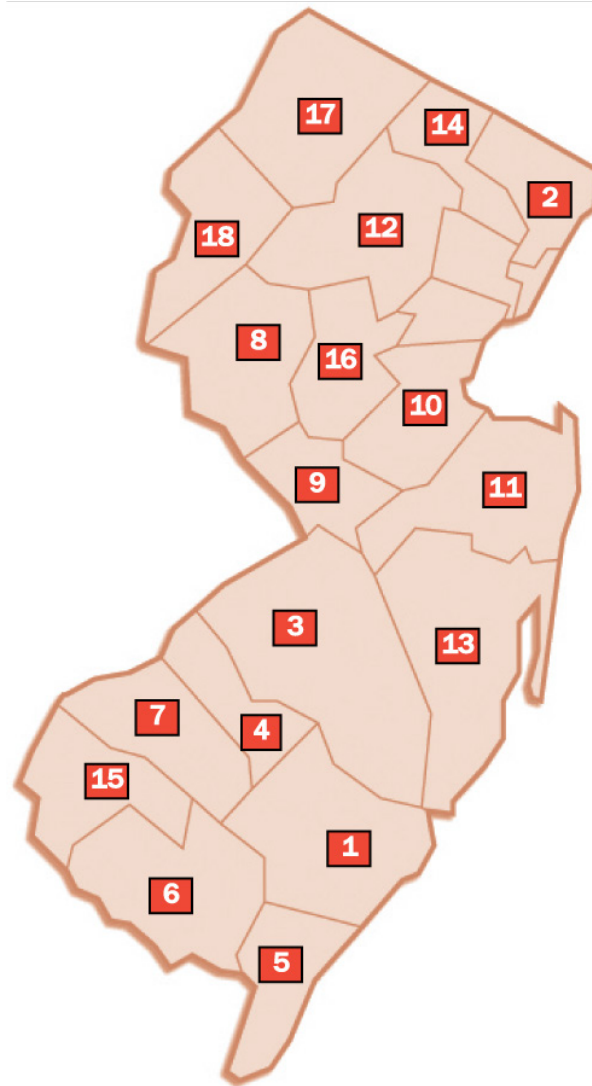

NEW**N2IT1**

Instructor: *T. Steve King, Deputy OEM Coordinator, Burlington County*

A non-tactical course designed to familiarize the student with the roles and duties of a strike team or task force leader responding to incidents in New Jersey. Designed for the fire service, the information will be generic enough in nature to provide responders the insight for an all-hazard response as well. Participants will be asked to critique these first offerings of this class to further improve the course for future deliveries.

This matrix is provided to assist you in determining which programs receive CEU credit toward renewal of Uniform Fire Code, Uniform Construction Code and Fire Instructor Certifications. An X indicates that credit will be issued to a specific certification discipline. Please note that more than one credit type can be issued for the same program. * Multiple Dwelling Inspector CEU for CE017, CE021, CE032, CE063, CE092, CE170, CE501, CE547, CE755, CE763, CE765, CE774, CE582, C2T21 and C2T23. The CEU credit awarded is identified in the eighth column. Please use this matrix to assist your program selection.
