Candidate name

DFS ID #

Course #

Evaluation

Standard:
NFPA 1001, 2013 Edition
5-3.3

Task

Operate in an established work area at an emergency scene with high flow traffic.

Conditions and Outcome

Given personal protective clothing, other necessary personal protective equipment, and traffic and scene control devices, the candidate shall be able to operate in a high traffic environment so that procedures are followed, personal protective clothing is worn, a protective work area is established, and traffic is controlled. **The candidate will complete this task with a minimum of 6 items answered correctly.**

Number	Task Steps	First Test		Retest #1		Retest #2	
		Pass	Fail	Pass	Fail	Pass	Fail
1	Wear all personal protective clothing necessary for working in a traffic area. • wear a Class III vest OR If a Class III vest is not available • state the reflective tape of the structural firefighting gear must be in good condition b. Releasing traffic c. Slowing traffic d. Directing traffic to another lane 7. Always face approaching traffic when picking up the traffic control devices						
2	Place a warning sign 100 to 1,500 feet upstream of the blocking apparatus (if available)						
3	Establish a one lane taper 75 – 100 foot in length from the blocking apparatus upstream using cones and/or flares (must first check area for flammable material before using flares)						
4	Establish a working zone downstream from the blocking apparatus using cones and/or flares (NOTE: must first check area for flammable material before using flares)						
5	Always face approaching traffic when working upstream of the blocking apparatus						
6	Establish flagging station and demonstrate the following flagging signals for: a. Stopping traffic b. Releasing traffic c. Slowing traffic d. Directing traffic to another lane						
7	Always face approaching traffic when picking up the traffic control devices						
Final Test Result for Entire Task
