BASIC PRACTICAL SKILLS EXAMINATION REPORT

Skill sheet #

**HMOPS
29**

Certification Title

**Hazardous Materials Operational Level, Mission Specific PPE
DOFFING A LEVEL B ENCAPSULATED CHEMICAL-
PROTECTIVE CLOTHING ENSEMBLE**

Applicant Information

Candidate name

DFS ID #

Course #

Evaluation

**Standard:
NFPA 472, 2013 Edition
6.2.4.1(3)**

Task

Correctly doff Level B encapsulated chemical protective clothing ensemble.

Conditions and Outcome

The candidate, provided with the appropriate Level B encapsulated chemical protective clothing, shall be able to correctly doff Level B encapsulated chemical protective clothing ensemble. **The candidate will complete this task with a minimum of 10 items answered correctly**

Number	Task Steps	First Test		Retest #1		Retest #2	
		Pass	Fail	Pass	Fail	Pass	Fail
1	The candidate should proceed to the predetermined clean area for doffing following decontamination.						
2	The candidate inside the suit should pull both arms out of the glove and sleeve and into the suit space if possible.						
3	The doffing assistant opens the fastener on the chemical splash flap that protects the chemical suit zipper.						
4	The doffing assistant next holds the zipper loop and opens the zipper until it is completely open.						
5	Starting at the head, roll the suit outward and down at the same time.						
6	Roll the suit down until it is below that point when the candidate inside can sit down on a bench/chair.						
7	The candidate inside can now sit on the bench/chair and place both feet forward						
8	The assisting candidate will grab hold of the heels of both boots and pull boot and suit off.						
9	The candidate inside the suit should then rotate on the bench in a direction that will allow him or her to place the feet on a clean, dry surface						
10	The candidate inside the suit can now stand and move to the next area to remove the SCBA using the quick release method. The face piece should be kept in place while the candidate leans forward and places the frame on the ground
