Evaluation

Standard:
NFPA 1001, 2013 Edition
5-3.9

Task

Rescue a **simulated** victim by removing from a second story window
Evaluator: AHJ may require tag line/belay system

Conditions and Outcome

Given a search and rescue scenario where a simulated victim is located near a window by two rescuers, a ladder, a team member on the ground level, a rescue mannequin not weighing more than 250 pounds, and in full protective equipment, the candidate shall demonstrate the necessary skills to raise a ladder for a window rescue, place a victim on the ladder, and bring the victim safely down the ladder to safety. **The candidate will complete this task with a minimum of 6 items answered correctly.**

Number	Task Steps	First Test		Retest #1		Retest #2	
		Pass	Fail	Pass	Fail	Pass	Fail
1	Raise a ladder for window rescue: raise secondary ladder adjacent to the first ladder (for instructor/safety purpose)						
2	Ensure the ladder is heeled, secured, and at the proper climbing angle						
3	Ascend the ladder						
4	Direct the two firefighters at the window to place the victim on the ladder using one of the methods listed below; the evaluator will pick either a conscious or unconscious victim						
5	Conscious Victim <ul style="list-style-type: none"> Victim is lowered feet first from the building to the ladder Rescuer on the ladder supports victim and descends ladder, keeping both arms around victim under the armpits with hands on rungs in front of the victim (rescuer constantly reassures the victim) 						
6	Unconscious Victim <ul style="list-style-type: none"> Same as conscious victim, except victim's body rests on the rescuer's knee with the victim's feet outside the rails; or Same as conscious victim, except turn victim to face rescuer; or Victim faces rescuer, but with victim's knees and arms over the rescuer's shoulders; victim's armpits are supported by rescuer's arms while descending with rescuer's hand sliding down the beam 						
7	Rescuer safely descends the ladder with victim						
Final Test Result for Entire Task
