NFPA 1091, 2015 Edition
4.3.3

Task

Using the Traffic Incident Safety Guidelines for Emergency Responders Program.

Conditions and Outcome

Using either a table top model or available apparatus, the student shall position the placement of warning devices of an incident scene. Facility can utilize a table-top model using available matchbox vehicles, cones, and other associated hazards found at the incident. Or using an academy/department emergency vehicle, have available traffic cones, and associated signage available for student use. **Transition / Taper Area**

Number	Task Steps	First Test		Retest #1		Retest #2	
		Pass	Fail	Pass	Fail	Pass	Fail
1	Simulate a traffic incident using one or two vehicles and have students' place traffic cones to indicate a proper transition / taper effect around the incident area.						
Final Test Result for Entire Task
