## BASIC PRACTICAL SKILLS EXAMINATION REPORT

Skill sheet #

**IFBE-23**

Certification title

**Industrial Fire Brigade**  
**Basic Advance Exterior Member**  
***SKILL REQUIREMENTS – OPERATING A FIRE***  
***HYDRANT***

### Applicant Information

Candidate name

DFS ID #

Course #

### Evaluation

**Standard:**  
**NFPA 1081,**  
**Chapter 5.2.7**  
**2018 Edition**

Task

The brigade member will demonstrate operating a fire hydrant.

#### Conditions and Outcome

The brigade member shall demonstrate the ability to properly operate a fire hydrant. The brigade member shall be provided with full personal protective equipment (PPE), hydrant wrench, hose, hydrant valve, and fire hydrant.

Number	Task Steps	First Test		Retest #1		Retest #2	
		Pass	Fail	Pass	Fail	Pass	Fail
1	Remove the cap from the outlet you will be using.						
2	Look inside the hydrant opening for debris.						
3	Check that the remaining caps are snugly attached.						
4	Attach the hydrant wrench to the stem nut located on top of the hydrant. Check the top of the hydrant for an arrow indicating the direction to turn to open.						
5	Open the hydrant valve enough to verify flow of water and to flush out any debris that may be in the hydrant.						
6	Close the hydrant valve to stop the flow of water. Attach the hose or valve to the hydrant outlet.						
7	When instructed to do so by your officer or the pump driver/operator, start the flow of water by turning the hydrant wrench to fully open the valve. This may take 12 or more turns depending on the type of hydrant.						
8	Open the hydrant slowly to avoid a pressure surge. Once the flow of water has begun, you can open the hydrant valve more quickly. Make sure that you open the hydrant valve completely. If the valve is not fully opened, the drain hole will remain open.
