Number	Task Steps	First Test		Retest #1		Retest #2	
		Pass	Fail	Pass	Fail	Pass	Fail
1	Grasp the cover with the outside hand midway between the center and the edge to be folded.						
2	Place the other hand on the cover as a pivot midway between the outside hand and the center.						
3	Bring the fold over to the center of the cover. This will create an inside fold (center) and an outside fold.						
4	Grasp the cover corner with the outside hand.						
5	Place the other hand as a pivot on the cover over the outside fold.						
6	Bring this outside edge over to the center, and place it on top of and in line with the previously placed first fold.						
7	Fold the other half of the cover in the same manner by using Steps 1 through 6.						
8	Straighten the folds if they are not straight.						
9	Grasp the same end of the cover, with the cover folded to reduce width.						
10	Bring this end to a point just short of the center.						
11	Use one hand as a pivot, and bring the folded end over and place on top of the first fold.						
12	Fold the other end of the cover toward the center, leaving about 4 inches between the two folds.						
13	Place one fold on top of the other for the complete fold; the space between the folds now serves as a hinge.
