#### Chapter 4.3.5/9.1.2

Perform various road tests in an ARFF apparatus. *[NFPA® 1002, 9.1.2]*

NFPA® 1002 considers the following situations essential to driver/operator skills, however these may not be practical in the ARFF environment:

- Four left and four right turns
- A straight section of urban business street or two-lane rural road at least 1 mile (1.6 km) in length
- One through intersection and two intersections where a stop must be made
- One railroad crossing
- One curve, either left or right
- A section of limited-access highway that includes a conventional ramp entrance and exit and a section of road long enough to allow two lane changes
- A downgrade steep enough and long enough to require down-shifting and braking
- An upgrade steep enough and long enough to require gear changing to maintain speed
- One underpass or a low-clearance bridge
