### Evaluation

**Standard:**  
**NFPA 1003, 2015 Edition**

Chapter 4.3.4

**Task**

**Evaluator: Fire Suppression.** This duty involves the attack, control, and extinguishment of fires involving aircraft, aircraft cargo, airport facilities **Order not critical**

Attack a fire on the interior of an aircraft while operating as a member of a team, given a team, approved PPE, an assignment, a fire-fighting vehicle hand line, an extinguishing agent, and a ladder or other means of accessing the aircraft, so that team integrity is maintained, the attack line is deployed for advancement, ladders or other means are used, access is gained into the fire area, effective agent application practices are used, the fire is approached, attack techniques facilitate suppression given the level of the fire, hidden fires are located and controlled, hazards are avoided or managed, and the fire is brought under control.

| Number                              | Task Steps  | First Test |      | Retest #1 |      | Retest #2 |      |
|-------------------------------------|---|------------|------|-----------|------|-----------|------|
|                                     |   | Pass       | Fail | Pass      | Fail | Pass      | Fail |
| <b>1</b>                            | Demonstrate Techniques for accessing the aircraft interior according to the aircraft type, methods for advancing hand lines from a fire-fighting vehicle, precautions to be followed when advancing hose lines to a fire,   |            |      |           |      |           |      |
| <b>2</b>                            | Demonstrate observable results that a fire stream has been applied, dangerous structural conditions created by fire, principles of exposure protection, potential long-term consequences of exposure to products of combustion, physical states of matter in which fuels are found,   |            |      |           |      |           |      |
| <b>3</b>                            | Explain common types of accidents or injuries and their causes  |            |      |           |      |           |      |
| <b>4</b>                            | Demonstrate the role of the backup team in fire attack situations, attack and control techniques, and techniques for exposing hidden fires  |            |      |           |      |           |      |
| <b>5</b>                            | Properly deploy the fire-fighting vehicle hand line on an interior aircraft fire; gain access to aircraft interior; open, close, and adjust nozzle flow and patterns; apply agent using direct, indirect, and combination attacks; advance charged and uncharged hose lines up ladders and up and down interior and exterior stairways; and locate and suppress interior fires. |            |      |           |      |           |      |
|                                     |   |            |      |           |      |           |      |
|                                     |   |            |      |           |      |           |      |
| <b>Final Result for Entire Task</b> |   |            |      |           |      |           |      |
