<b>1</b>	Using a prepared webbing sling, place the victim in the center of the loop so the webbing is behind the victim's back in the area just below the armpits.						
<b>2</b>	Take the large loop over the victim and place it above the victim's head. Reach through, grab the webbing behind the victim's back, and pull through all the excess webbing. This creates a loop at the top of the victim's head and two loops around the victim's arms.						
<b>3</b>	If necessary, adjust your hand placement to protect the victim's head while dragging.
