and Certification

# New Jersey Division of Fire Safety

## BASIC PRACTICAL SKILLS EXAMINATION REPORT

Skill sheet #

**HMT-34**

Certification title

**Hazardous Material Technician**

### Applicant Information

Candidate name

DFS ID #

Course #

### Evaluation

**Standard:**

NFPA 1072, 2017 edition  
7.4.4.2

Task

**Perform technical decontamination on non-ambulatory victims.**

Conditions and Outcome

This skill involves the use of actual hazardous materials samples, hazardous materials can cause serious injury or fatality. While wearing the appropriate PPE, demonstrate the following general skill steps; specific hazmat incidents may differ in procedure. **Special Note: Specific procedures will vary depending on the equipment used. Always follow the manufactures instructions for complete directions.**

Number	Task Steps	First Test		Retest #1		Retest #2	
		Pass	Fail	Pass	Fail	Pass	Fail
1	Ensure proper decontamination method has been chosen to minimize hazards.						
2	Ensure that all responders are wearing appropriate PPE for performing technical decontamination operations.						
3	Establish technical decontamination corridor for non-ambulatory decontamination in a safe location and according to the AHJ's SOPs.						
4	Ensure the decontamination corridor provides privacy for victims.						
5	Establish an initial triage point to evaluate and direct victims.						
6	Perform lifesaving intervention if necessary.						
7	Transfer the victim to the non-ambulatory wash area of the decontamination station on an appropriate backboard/litter device.						
8	Remove all clothing, jewelry, and personal belongings, and place in appropriate containers. Decontaminate items as required, and safeguard. Use bags with labels for identification.						
9	Carefully undress non-ambulatory victims, and avoid spreading the contamination when undressing. Do not touch the outside of the clothing to the skin.						
10	Completely wash the victims' entire body using handheld hoses, sponges, and or brushes, and then rinse.						
11	Transfer the victim from the wash and rinse stations to a drying station after completing the decontamination process. Ensure that the victim is completely dry.						
12	Monitor for additional contamination using the appropriate detection device.						
13	Have on scene medical personnel re-valuate the victim's injuries.						
14	Ensure personnel, tools, and equipment are decontaminated.						

<b>15</b>	Terminate decontamination operations according to AHJ's policies and procedures.						
<b>16</b>	Complete required reports and supporting documentation.						
<b>Final Test Result for Entire Task</b>
